Overview

HP recommends Windows Vista[®] Business

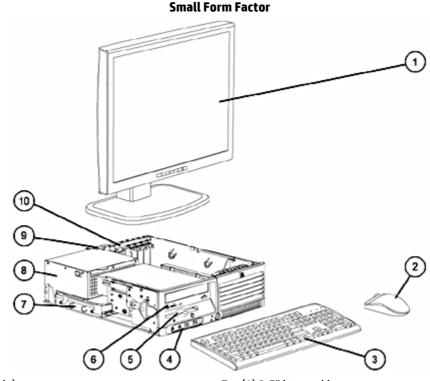

- 1. Monitor (sold separately)
- 2. 2-Button Scroll Mouse (PS/2) or Optical Scroll Mouse (PS/2 or USB)
- 3. HP Standard Keyboard (PS/2 or USB) or HP USB Smartcard Keyboard
- 4. Front I/O: (2) USB 2.0, headphone and microphone
- 5. (1) Slimline Drive Bay

- 6. (1) 3.5" internal bay
- 7. 200-watt Active Power Factor Correction (PFC) power supply
- (1) full-height PCI slot (requires optional PCI riser), (1) low profile PCI Express x16 slot (requires optional PCIe x16 riser)*
- Rear I/O: (6) USB 2.0, (1) optional serial port (available via adapter), (1) optional parallel port (available via adapter), (1) optional DVI graphics port (available via DVI ADD2 adapter), (2) PS/2, (1) RJ-45, (1) VGA, audio in/out

* Only one optional PCI riser card (the PCI riser or the PCI Express x16 riser) or one PCI Serial and parallel I/O adapter is allowed.

Overview

- 1. Monitor (sold separately)
- 2. 2-Button Scroll Mouse (PS/2) or Optical Scroll Mouse (PS/2 or USB)
- 3. HP Standard Keyboard (PS/2 or USB) or HP USB Smartcard Keyboard
- 4. Front I/O: (2) USB 2.0, headphone and microphone
- 5. (1) 3.5" external bay for optional HP 16-in-1 Media Card Reader, diskette drive, or other 3.5" device
- device (bay tilts up for device removal and insertion)

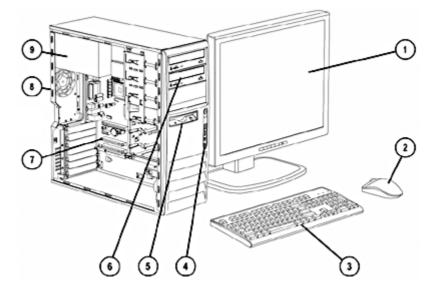

* With riser card option, PCI Express x1 and x16 slots are inaccessible.

- 7. (1) 3.5" internal bay
- 8. 240-watt or 240-watt high efficiency 80 PLUS[®] Active Power Factor Correction (PFC) power supply
- 9. Rear I/O: (6) USB 2.0, (1) standard serial port, (1) optional serial port, (1) parallel port, (2) PS/2, (1) RJ-45, (1) VGA, (1) optional DVI graphics port (available via DVI ADD2 adapter), audio in/out
- 6. (1) 5.25" external bay for optional optical drive, or other 5.25" 10. (2) low profile PCI slots, (1) low profile PCI Express x1 slot, (1) low profile PCI Express x16 slot; (2) full-height PCI slots optional (require PCI riser card)*

Overview

Convertible Minitower

- 1. Monitor (sold separately)
- 2. 2-Button Scroll Mouse (PS/2) or Optical Scroll Mouse (PS/2 or USB)
- 3. HP Standard Keyboard (PS/2 or USB) or HP USB Smartcard Keyboard
- 4. Front I/O: (2) USB 2.0, headphone and microphone
- 5. (1) 3.5" external bay for optional HP 16-in-1 Media Card Reader, diskette drive, or other 3.5" device
- 6. (3) 5.25" external bays and (2) 3.5" internal bays

- 7. (2) full-height PCI slots, (1) full-height PCI Express x1 slot,
 (1) full-height PCI Express x16 slot, (2) additional full-height PCI slots optional
- 8. Rear I/O: 6 USB 2.0, 1 standard serial port, 1 optional serial port, 1 parallel port, 2 PS/2, 1 RJ-45, 1 VGA, audio in/out, mic in
- 9. 365-watt or 365-watt high efficiency 80 PLUS Active Power Factor Correction (PFC) power supply

Overview

At A Glance

- Designed for long-term, networked deployment within medium and large organizations in commercial business, finance and public sector industries
- Created using industry leading Design for Environment standards. Upgradeable, recyclable and energy efficient.
- Long purchase lifecycles and image stability for demanding enterprise environments
- Support for new Intel technologies introduced in 2006: Intel[®] Q965 Express chipset, Intel Core[™] 2 Duo Processors, and Intel Graphics Media Accelerator 3000 integrated graphics
- Select models with new Intel vPro technology support the latest in manageability and security technology
- Value-added software on select models
 - O HP Total Care Advisor
 - HP ProtectTools Security Software Suite, including embedded security, preinstalled standard
 - O HP Backup and Recovery Manager
 - O HP Software Agent
 - O Altiris Deployment Solution Agent
 - O Symantec AntiVirus 10.0 with 60 day Live Update Subscription
 - O HP Insight Diagnostics software
 - O Microsoft Office 2007
 - O PDF Complete
 - Computrace for Desktops
 - Value-added software available for free download from the Web (http://www.hp.com/go/easydeploy)
 - HP Client Configuration Manager, Basic Edition
 - HP Out-of-Band Management Console (for Intel AMT enabled models)
 - O HP Client Manager for Altiris
 - Altiris Out-of-Band Management Solution (for Intel AMT enabled models)
 - O HP SoftPaq Download Manager
 - O HP System Software Manager
 - O HP Client Catalog for Microsoft SMS
 - Verdiem Surveyor remote power management agent
- Fully compatible software OS image across all three models (Ultra-slim Desktop, Small Form Factor, and Convertible Minitower)
- HP BIOS for better security, manageability and software image stability
- Selected configurations with global availability easily set up and ordered through HP.com Business to Business portals (http://h10019.www1.hp.com/business-site/index.html)
- Tailored HP Factory Express deployment and lifecycle services available (http://h71028.www7.hp.com/enterprise/cache/97688-0-0-225-121.aspx)
- Protected by HP Services, including standard warranties up to 5-5-5 (terms and conditions vary by country; certain restrictions and exclusions apply).
- Security
 - Embedded TPM1.2 compliant security module* (requires HP ProtectTools Embedded Security software), providing compatibility with future security features expected in Microsoft Vista
 - O Redundant Array of Independent Disks (RAID) 1 configurations to protect data against hardware failures
 - HP Backup and Recovery Manager to protect data against software corruption or incompatibilities due to patching or upgrades
- Tool-less serviceability features for easier upgrades and repairs
- Choice of professional chassis form factors to accommodate the desired mix between expandability and size

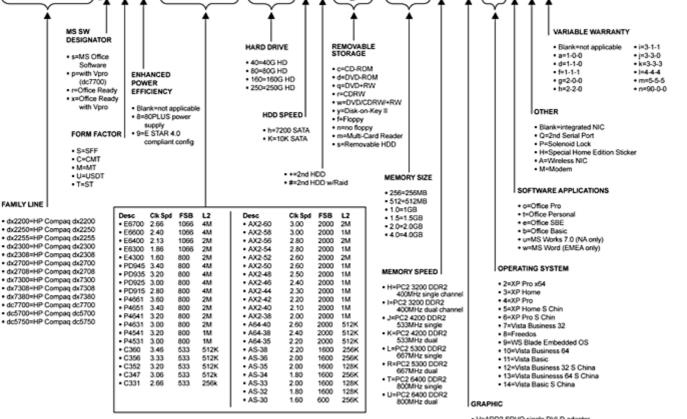

Configurable Components - Select Models (localized by Regions)

Model Key and Example

NOTE: This diagram is an example that illustrates how to read the model number. It is not intended to give every available configuration choice specified in the body of this document and may include references to modules that are out of date and no longer available.

Memory

DDR2 SYNCH DRAM NON-ECC MEMORY

Memory upgrades are accomplished by adding single or multiple DIMMs of the same or varied sizes. This chart does not represent all possible memory configurations. The Intel Q965 Express chipsets support non-ECC DDR2 PC2-5300 (667-MHz) and PC2-6400 (800-MHz) memory.

CAUTION: You must shut down the computer and disconnect the power cord before adding or removing memory modules. Regardless of the power-on state, voltage is always supplied to the memory modules as long as the computer is plugged in to an active AC outlet. Adding or removing memory modules while voltage is present may cause irreparable damage to the memory modules or system board.

HP recommends dual-channel symmetric configurations for maximum performance.

For best performance, add the same amount of total memory to each channel and do not mix speeds. For dual-channel symmetric performance, the total amount of memory in each channel must be equal. If speeds are mixed, speed will default to the slowest DIMM.

Ultra-slim Desktop

Maximum Memory* Supports up to 3 GB of DDR2 SYNCH DRAM. Slot 1 is black and must always be populated. Not all memory configurations possible are represented below.

DIMM Size	Slot					
	Char	Channel B				
	1 (black)	2 (white)	3 (white)			
512-MB	512-MB					
512-MB (dual-channel	256-MB		256-MB			
symmetric)						
1-GB	1-GB					
1-GB (dual channel symmetric)	512-MB		512-MB			
3-GB maximum	1-GB	1-GB	1-GB			

* The Intel Q965 Express chipset includes a built-in Management Engine (ME), which allocates memory for manageability functions. Management Engine memory is shared with system memory. If the PC contains a single DIMM, 8 MB of memory is pre-allocated for it at system startup. If the PC contains two DIMMs, 16 MB of memory is pre-allocated. This memory is not made available to the operating system, just as pre-allocated video memory is not available.

Small Form Factor and Convertible Minitower

Maximum Memory*

Supports up to 8 GB of DDR2 SYNCH DRAM. *Slot 1 is black and must always be populated. Not all memory configurations possible are represented below.* **NOTE:** For systems configured with more than 3 GB of memory and a 32-bit operating system, all memory may not be available due to system resource requirements. Addressing memory above 4 GB requires a 64-bit operating system.

DIMM Size	Slot				
	Cha	annel A	Cha	nnel B	
	1 (black)	2 (white)	3 (white)	4 (white)	
512-MB	512-MB				
512-MB (dual-channel symmetric)	256-MB		256-MB		
1-GB	1-GB				
1-GB (dual-channel symmetric)	512-MB		512-MB		
1-GB (dual-channel symmetric)	256-MB	256-MB	512-MB		
2-GB (dual-channel symmetric)	1-GB		512-MB	512-MB	
2-GB (dual-channel symmetric)	512-MB	512-MB	512-MB	512-MB	
4-GB	1-GB	1-GB	1-GB	1-GB	
(dual-channel symmetric)					
8-GB maximum (dual-channel symmetric)	2-GB	2-GB	2-GB	2-GB	

* The Intel Q965 Express chipset includes a built-in Management Engine (ME), which allocates memory for manageability functions. Management Engine memory is shared with system memory. If the PC contains a single DIMM, 8 MB of memory is pre-allocated for it at system startup. If the PC contains two DIMMs, 16 MB of memory is pre-allocated. This memory is not made available to the operating system, just as pre-allocated video memory is not available.

	DVI-D ADD2 SDVO single head full-height Graphics Adapter (PCIe x16)			Х
	ATI Radeon X1300 (256MB SH) low profile PCIe Card, DVI w/TV	Х*	Х	
	ATI Radeon X1300 (256MB SH) full-height PCIe Card, DVI w/TV			Х
	ATI Radeon X1300 Pro (256MB DH) low profile PCIe Graphics Card	Х*	Х	
	ATI Radeon X1300 Pro (256MB DH) full-height PCIe Graphics Card			Х
	ATI Radeon X1600XT (256MB DH) full-height PCIe Card, DVI w/TV-out			Х
	NVIDIA Quadro NVS 280 (64MB DH) PCI VGA Card	X**	X***	X***
	NVIDIA Quadro NVS 285 (128MB DH) PCIe x16 VGA Card	Х*	X***	X***
	* USDT requires optional PCIe riser card. ** USDT requires optional PCI riser card. *** NVIDIA Quadro 285 and NVS 280 graphics cards can be combined to provide support for four monitors.			

Audio	Integrated High Definition audio with Realtek 4-channel ALC262 codec (all ports are stereo)	х	х	х
	Microphone and Headphone front ports	х	х	х
	Microphone rear port*	Λ	~	X
	Line-out and Line-In rear ports*	х	х	X
	Multistreaming capable*	X	X	X
	Internal Speaker	X	X	X
	* Rear audio ports are re-taskable as Line-in, Line-out, or Microphone-in. External sp powered externally. Multistreaming can be enabled in the Realtek control panel to al audio streams to be sent to/from the front and rear jacks. This allows for different a use separate audio ports on the system. For example, the front jacks could be used v communications application while the rear jacks are being used with external speake application.	llow ind udio app vith a he	epende olicatior eadset f	nt ns to for a

ROM BIOS Information

Key features of the HP BIOS in the dc7700 include:

- Deployment and manageability HP BIOS provides several technologies that help integrate the HP Business desktop computer into the enterprise, such as PXE, remote configuration, remote control, and F10 Setup support for 12 languages. Select models offer Intel vPro technology including AMT (Active Management Technology).
- Stability HP BIOS supports the HP stable product roadmap by releasing only critical BIOS changes to the factory and advanced change notification.
- Security HP BIOS Configuration for ProtectTools offers a robust and flexible set of security features to help the system administrator secure their systems from removal of sensitive data, and help prevent access by unauthorized users.
- Thermal and power management The HP BIOS provides and enables thermal and power management technologies to assist in operating the HP Business Desktop computer in any enterprise environment.
- Serviceability HP BIOS provides diagnostic and detailed service information.
- Upgrades and recovery HP BIOS provides numerous ways to upgrade HP Business Desktop computers, including BIOS updates from within DOS (Flashlite), BIOS updates from within Windows (HPQFlash, SSM), HP Client Manager, and fail-safe recovery. In addition, the HP Business Desktop BIOS Utilities tool enables replicated BIOS setup throughout the Enterprise; it is available from within the BIOS software and from the support website.

Additional HP BIOS Features

- Power-On password Helps prevent an unauthorized user from powering on the system. After a TPM Basic User password is established in windows, the user or admin can require TPM hardware based authentication during the power-on process.
- Administrator password Also known as the setup password, this helps prevent unauthorized changes to the system configuration. If the administrator password is not known, the BIOS version cannot be changed and changes cannot be made to BIOS settings using F10 setup or under the OS.
- Advanced Configuration and Power Interface (ACPI) Represents a significant innovation in power and configuration
 management, allowing operating systems and applications to manage power based on activity and usage. HP Compaq dc7700
 models use ACPI to provide power conservation features under Windows XP.

Technical Specifications

Other Features	Description
ACPI-Ready Hardware	Advanced Configuration and Power Management Interface (ACPI).
	 Allows the system to wake from a low power mode. Controls system power consumption, making it possible to place individual cards and peripherals in a low-power or powered-off state without affecting other elements of the system.
SMBIOS Ver. 2.5	System Management BIOS, for system management information
Wired for Management Support	Intel-driven, industry-wide initiative to make Intel architecture-based PCs, servers and mobile computers more inherently manageable right out of the box and over the network
Dual-State Power Button	Power button acts as both an on/off button and suspend-to-sleep button

Serviceability Features of System					
Dual Colour Power LED on Front of Computer (Indicates Normal Operations and Fault Conditions)					
	Number of 1-second red LED blinks followed by 2-second pause, then repeats: 2-processor thermal protection activated 3-processor not installed 4-power supply failure 5-memory error 6-video error 7-PCA failure (ROM detected failure prior to video) 8-invalid ROM, bootblock recover mode				
• System/Emergency ROM	• Flash ROM	 CMOS Battery Holder for easy Replacement 			
 Flash Recovery with Video Configuration Record SW 	• 5 Aux Power LED on System PCA	Processor ZIF Socket for easy Upgrade			
 Over-Temp Warning on Screen (Requires IM Agents) 	Clear Password Jumper	DIMM Connectors for easy Upgrade			
HP Backup and Recovery Manager	Clear CMOS Button	NIC LEDs (integrated) (Green & Amber)			

Serviceability Features of Chassis			
 Dual Colour Power and HD LED – To Indicate Normal Operations and Fault Conditions 	 Colour coordinated cables and connectors 	Tool-less Hood Removal	
Front power switch	 System memory can be upgraded without removing the system board or any internal components 	 Tool-less Hard Drive, CD & Diskette Removal 	
 Green Pull Tabs, and Quick Release Latches for easy Identification 		 Tool-less System Board Removal 	
NOTE: Thumb screw release mechanisn	n is used with the Ultra-slim Desktop chassis cove	er.	
Feature	Description		
AMT 2.0 support (Active Management Technology)	Select models offer new Intel vPro Technology utilizing AMT 2.0 for network alerting and management of systems regardless of power state, as well as operating system-absent environments.		

Technical Specifications

ASF 2.0 support (Alert Standard Format)	Industry-standard specification for network alerting in operating system-absent environments
Tower	Product can be oriented as a tower (in addition to desktop orientation)
	Implementation of the industry standard ATA Security feature set. When enabled, it prevents software access to user data on the drive until one or two user-defined passwords are provided.
Drive Self Tests (DPS)*	 Drive Protection System A diagnostic hard drive self test. It scans critical physical components and every sector of the hard drive for physical faults and then reports any faults to the user. Running independently of the operating system, it can be accessed through a Windows based diagnostic autility on through the component proceeding. It is a second secon
DPS Access through F10 Setup during Boot	 Windows-based diagnostics utility or through the computer's setup procedure. It produces an evaluation on whether the hard drive is the source of the problem and needs to be replaced. The system expands on the Self-Monitoring, Analysis, and Reporting Technology (SMART), a continuously running systems diagnostic that alerts the user to certain types of failures.
(Self-Monitoring, Analysis and Reporting	Allows hard drives to monitor their own health and to raise flags if imminent failures were
Technology) SMART I – Drive Failure Prediction SMART II – Off-Line Data Collection SMART III – Off-Line Read Scanning with Defect Reallocation	 Predicts failures before they occur. Tracks fault prediction and failure indication parameters such as re-allocated sector count, spin retry count, calibration retry count By avoiding actual hard drive failures, SMART hard drives act as "insurance" against unplanned user downtime and potential data loss from hard drive failure
	RAID (Redundant Array of Independent Disks) configuration is enabled.

Technical Specifications - Audio

High Definition Audio	Туре	Integrated
	High Definition Stereo Codec	Yes – Realtek ALC262, 4-channel
	Audio Jacks	Microphone-In (64-K ohm Input Impedance); front and rear stereo analog microphone ports available except for USDT and SFF, which has front stereo microphone only
		Line-In (64-K ohm Input Impedance)
		Line-Out * (200 ohms Output Impedance, expects at least a 10-K ohm load)
		Headphone-Out (1 Ohm Output Impedance, expects at least a 32 ohm load)
		er is for Internal Speaker only. External Speakers need to be powered externally. skable as Line-in, Line-out, or Microphone-in.
	Multistreaming Capable	Multistreaming can be enabled in the Realtek control panel to allow independent audio streams to be sent to/from the front and rear jacks.
	Sampling	8 kHz – 192 kHz
	Wavetable Syntheses (software)	Yes – Uses OS soft wavetable
	Analog Audio	Yes
	Number of Channels on Line-Out (mono/stereo)	Stereo (Left & Right channels)
	Internal Audio Speaker Power Rating	1.5 W
	Internal Speaker	Yes
	External Speaker Jack (Line-Out)	Yes

	Power Management	ACPI; PPMI 1.1 and wake support with PME and Vaux; meets PCI 2.3 requirements and PC 2001 requirements
	Upgradeability	Driver upgradeable for future enhancements
	Video	ITU-T V.80 video ready interface

Technical Specifications - Communications

Other	TIA/EIA 602 standard AT command set
	Integrated DTE interface with speeds of up to 115.2 Kbps, parallel 16550a UART-compatible interface
	Optional ring wakeup signal
Operating Temperature	32° to 158° F (0° to 70° C)
Operating Humidity	20% to 90%, non-condensing
Power	Requires a 3.3-V auxiliary power rail on PCI bus
	Uses only one PCI load (i.e., one grant/request pair), one shared IRQ, one electrical load
Chipset	Agere Systems SV92PL – Integrated PCI interface with 5-V tolerant buffers and CardBus support
Dimensions (L X H)	Complies with PCI low profile specifications-6.7 x 2.3 in (17.0 x 5.8 cm) and supports high- and low-profile brackets
Connection	Single RJ-11 connector
Other Features	Digital line protection, call progress monitoring via on-board piezo device, support for high profile and low profile brackets, PnP ID support
Safety	UL recognized to UL 1950, 3rd edition (U.S. and Canada); IEC 950 (TUV, NEMKO, DEMKO, SEMKO); CE Mark, EC 950 (TUV, NEMKO, DEMKO, SEMKO, CE mark
ЕМС	FCC Part 15, IC ES003, EN 55022, 3rd edition, EN 55024, annex A, EN 61000-4- 6, EN 61000-4-8
Telecom	FCC Part 68, IC-CS-03 (Canada); Worldwide PTT approvals Not available in Korea or the Republic of South Africa.
Health	Bare PCB material compliant to 94V-0 or better (marked as such)
Other	PC 2001 compliant, PCI version 2.3, WHQL approved; ACPI compliant

Technical Specifications - Graphics

Integrated Graphics 3D/2D Controller Media Accelerator 3000		Microsoft DirectX® 9 based with support for Pixel Shader 2.0, 4:1 anisotropic filtering, Gaussian texture filtering, shadow maps, volumetric textures, double-sided stencil buffers, and 4 pixel pipes.

USB Standard Keyboard	Physical characteristics	Keys	104, 105, 106, 107, 109 layout (depending upon country)
		Dimensions (L x W x H)	18.0 x 6.4 x 0.98 in (45.8 x 16.3 x 2.5 cm)
		Weight	2 lb (0.9 kg) minimum
	Electrical	Operating voltage	+ 5VDC ± 5%
		Power consumption	50-mA maximum (with three LEDs ON)
		System interface	USB Type A plug connector
		ESD	CE level 4, 15-kV air discharge
		EMI – RFI	Conforms to FCC rules for a Class B computing device
		Microsoft® PC 99 – 2001	Functionally compliant
	Mechanical	Languages	38 available
		Keycaps	Low-profile design
		Switch actuation	55-g nominal peak force with tactile feedback
		Switch life	20 million keystrokes (using Hasco modified tester)
		Switch type	Contamination-resistant switch membrane
		Key-leveling mechanisms	For all double-wide and greater-length keys
		Cable length	6 ft (1.8 m)
		Microsoft PC 99 – 2001	Mechanically compliant
		Acoustics	43-dBA maximum sound pressure level
	Environmental	Operating temperature	50° to 122° F (10° to 50° C)
		Non-operating temperature	-22° to 140° F (-30° to 60° C)
		Operating humidity	10% to 90% (non-condensing at ambient)
		Non-operating humidity	20% to 80% (non-condensing at ambient)
		Operating shock	40 g, six surfaces
		Non-operating shock	80 g, six surfaces
		Operating vibration	2-g peak acceleration
		Non-operating vibration	4-g peak acceleration
		Drop (out of box)	26 in (66 cm) on carpet, six-drop sequence
		Drop (in box)	42 in (107 cm) on concrete, 16-drop sequence
	Approvals	UL, CSA, FCC, CE Mark, TUV,	, TUV GS, VCCI, BSMI, C-Tick, MIC
	Ergonomic compliance	ANSI HFS 100, ISO 9241-4, and TUVGS	
	Kit contents	Keyboard, installation guid	e, warranty card, safety and comfort guide

QuickSpecs

Eco-Label CertificationsThis product has received or is in the process of being certified to the following approvals and may be
labeled with one or more of these marks:

- ENERGY STAR*
- US Federal Energy Management Program (FEMP)
- Taiwan Green Mark
- China Energy Conservation Program
- IT ECO declaration
- EPEAT Rated SILVER
- Korea Eco-label
- EPEAT
- Japan PC Green label**

* Select configurations available for ENERGY STAR compliance.

** This product conforms to the examination standards (2003 version) under JEITA's 'PC Green Label System.'

Ultra-slim Desktop

Energy Consumption

System Configuration The configuration used for the Energy Consumption and Declared Noise Emissions data for the Ultra-slim Desktop model is based on a typically configured product.

	115 VAC	230 VAC	100 VAC
Normal Operation	105.3 W	103.0 W	106.8 W
Sleep (ENERGY STAR low power mode)	2.74 W	3.00 W	2.76 W
Off	1.58 W	1.85 W	1.57 W
Heat Dissipation*	115 VAC	230 VAC	100 VAC
Normal Operation	359.3 BTU/hr	351.4 BTU/hr	364.4 BTU/hr
Sleep	9.3 BTU/hr	10.2 BTU/hr	9.4 BTU/hr
Off	5.4 BTU/hr	6.3 BTU/hr	5.4 BTU/hr
	* Heat dissipation is calculated base	ed on the measured watts, assuming	the service level is attained for

* Heat dissipation is calculated based on the measured watts, assuming the service level is attained for one hour.

This product is in compliance with US executive order 13221, WOL (wake on LAN) disabled.

Declared Noise Emissions

(in accordance with ISO 7779 and ISO 9296)

	Sound Power	Sound Pressure
System Fan Off	(LWAd, bels)	(LpAm, decibels)
Idle	3.9	29
Fixed Disk (random writes)	3.9	30
Optical Drive (sequential reads)	4.9	40

Longevity and Upgrading This product can be upgraded, possibly extending its useful life by several years. Upgradeable features and/or components contained in the product may include:

- Intel LGA775 processor socket
- 8 USB ports
- 1 empty PCI full-height slot (w/ optional PCI riser card), or 1 empty PCIe low-profile x16 slot (w/optional PCIe riser card)
- 1 internal drive slot
- 1 Slimline optical drive slot
- 3 memory slots
- 1 Serial/Parallel adapter (optional)

Spare parts are available throughout the warranty period and or for up to 5 years after the end of production.

Batteries

This product complies with ISO standards:

- EU Directive 91/157/EEC
- EU Directive 93/86/EEC
- EU Directive 98/101/EEC

Batteries used in the product do not contain:

- Mercury greater the 5ppm by weight
- Cadmium greater than 10ppm by weight
- Lead greater than 4000ppm by weight.

Battery size: CR2032 (coin cell) Battery type: Lithium

Additional Information

- This product is in compliance with the Restrictions of Hazardous Substances (RoHS) directive 2002/95/EC.
- This product is in compliance with California Proposition 65 (State of California; Safe Drinking Water and Toxic Enforcement Act of 1986).
- This HP product is designed to comply with the Waste Electrical and Electronic Equipment (WEEE) Directive – 2002/96/EC.
- This product is in compliance with the IEEE 1680 (EPEAT) standard at the Silver level (see http://www.epeat.net)
- Plastics parts weighing over 25 grams used in the product are marked per ISO 11469 and ISO1043.
- This product contains 0% recycled materials (by wt.)
- This product is 92% recyclable when properly disposed of at end of life.

Packaging Materials	Corrugated Paper	1100 g
	EPE Foam	200 g
	LDPE Bag	23 g
		o/

- The EPE foam packaging material is made from 30 to 60% recycled content.
- The corrugated paper packaging materials contains at least 80% recycled content.

Small Form Factor

Energy Consumption

System ConfigurationThe configuration used for the Energy Consumption and Declared Noise Emissions data for the Small
Form Factor Desktop model is based on a typically configured product.

	115 VAC	230 VAC	100 VAC
Normal Operation	99.0 W	94.0 W	99.5 W
Sleep (ENERGY STAR low power mode)	2.64 W	2.87 W	2.62 W
Off	1.68 W	1.87 W	1.67 W
Heat Dissipation*	115 VAC	230 VAC	100 VAC
Normal Operation	337.8 BTU/hr	320.7 BTU/hr	339.5 BTU/hr
Sleep	9.0 BTU/hr	9.8 BTU/hr	8.9 BTU/hr
Off	5.7 BTU/hr	6.4 BTU/hr	5.7 BTU/hr
+11	and discinction is calculated have		a the new deallowed to attain ad few

* Heat dissipation is calculated based on the measured watts, assuming the service level is attained for one hour.

This product is in compliance with US executive order 13221, WOL (wake on LAN) disabled.

Declared Noise Emissions

(in accordance with ISO 7779 and ISO 9296)

	Sound Power	Sound Pressure
System Fan Off	(LWAd, bels)	(LpAm, decibels)
Idle	4.0	29
Fixed Disk (random writes)	4.0*	29**
Optical Drive (sequential reads)	5.1	41
	* 4.6 with 10,000 rpm hard drive	
	** 27 with 10 000 rom bard drive	

** 37 with 10,000 rpm hard drive

Technical Specifications - Environmental Data

Longevity and Upgrading This product can be upgraded, possibly extending its useful life by several years. Upgradeable features and/or components contained in the product may include:

- Intel LGA775 processor socket
- 8 USB ports
- 2 empty PCI slots (2 low profile or 2 full-height with optional riser)
- 1 empty PCIe x1 slot
- 1 empty PCIe x16 slot
- 1 internal drive bay
- 1 SATA optical drive bay
- 1 3.5-inch external drive bay
- 4 memory slots
- 1 second Serial port (optional)

This product complies with ISO standards:

Spare parts are available throughout the warranty period and or for up to 5 years after the end of production.

Batteries

- EU Directive 91/157/EEC
- EU Directive 93/86/EEC
- EU Directive 98/101/EEC

Ultra-slim Desktop, Small Form Factor, Convertible Minitower

RoHS Compliance Material Usage	Hewlett-Packard is committed to compliance with all applicable environmental laws and regulations, including the European Union Restriction of Hazardous Substances (RoHS) Directive. HP's goal is to exceed compliance obligations by meeting the requirements of the RoHS Directive on a worldwide basis. From July 1, 2006, RoHS substances will be virtually eliminated (virtually = to levels below legal limits) for all HP electronic products subject to the RoHS Directive, except where it is widely recognized that there is no technically feasible alternative (as indicated by an exemption under the EU RoHS Directive). This product does not contain any of the following substances in excess of regulatory limits (refer to the HP General Specification for the Environment at http://www.hp.com/hpinfo/globalcitizenship/environment/
	 supplychain/gen_specifications.html): Asbestos Certain Azo Colorants Certain Brominated Flame Retardants – may not be used as flame retardants in plastics Cadmium Chlorinated Hydrocarbons Chlorinated Paraffins
	 Formaldehyde Halogenated Diphenyl Methanes Lead carbonates and sulfates Lead and Lead compounds Mercuric Oxide Batteries Nickel – finishes must not be used on the external surface designed to be frequently handled or
	carried by the user. Ozone Depleting Substances Polybrominated Biphenyls (PBBs) Polybrominated Biphenyl Ethers (PBBEs) Polybrominated Biphenyl Oxides (PBBOs) Polychlorinated Biphenyl (PCB) Polychlorinated Terphenyls (PCT)
	 Polyvinyl Chloride (PVC) – except for wires and cables, and certain retail packaging has been voluntarily removed from most applications. Radioactive Substances Tributyl Tin (TBT), Triphenyl Tin (TPT), Tributyl Tin Oxide (TBTO)
Packaging	HP follows these guidelines to decrease the environmental impact of product packaging:
	 Eliminate the use of heavy metals such as lead, chromium, mercury and cadmium in packaging materials. Eliminate the use of ozone-depleting substances (ODS) in packaging materials. Design packaging materials for ease of disassembly. Maximize the use of post-consumer recycled content materials in packaging materials. Use readily recyclable packaging materials such as paper and corrugated materials. Reduce size and weight of packages to improve transportation fuel efficiency. Plastic packaging materials are marked according to ISO 11469 and DIN 6120 standards.
End-of-life Management and Recycling	Hewlett-Packard offers end-of-life HP product return and recycling programs in many geographic areas. To recycle your product, please go to: http://www.hp.com/recycle or contact your nearest HP sales office. Products returned to HP will be recycled, recovered or disposed of in a responsible manner.
	The EU WEEE directive (2002/95/EC) requires manufacturers to provide treatment information for each product type for use by treatment facilities. This information (product disassembly instructions) is posted

	on the Hewlett Packard web site at: http://www.hp.com/go/recyclers. These instructions may be used by recyclers and other WEEE treatment facilities as well as HP OEM customers who integrate and re-sell HP equipment.
