#### What is *Bluetooth®* wireless technology?

*Bluetooth®* wireless technology is a radio technology developed to deliver short-range wireless mobility. *Bluetooth®* technology eliminates wires between devices, such as mobile phones and headsets, and enables communication between devices that are in close proximity to one another. *Bluetooth®* facilitates fast, secure transmissions of both voice and data. More information is available at [www.Bluetooth.com](http://www.Bluetooth.com) or [www.Bluetooth.org](http://www.Bluetooth.org)
