

# 400A AC Clamp Meter

## CL1000

*Designed by Electricians  
for Electricians*

- Built-in magnetic mount for hands-free use.
- Lighted display and work light.

## 400A AC Clamp Meter

| MEASUREMENT                                                                    | CL1000       |
|--------------------------------------------------------------------------------|--------------|
| AC Current                                                                     | 400A         |
| DC Current                                                                     | —            |
| AC Voltage                                                                     | 750V         |
| DC Voltage                                                                     | 1000V        |
| Micro Amps                                                                     | 0.1 ~ 2000µA |
| Resistance                                                                     | 40MΩ         |
| Capacitance                                                                    | 4000µF       |
| Frequency / Duty Cycle                                                         | 499.9 kHz    |
| Diode Test                                                                     | ●            |
| Continuity                                                                     | ●            |
| Temperature                                                                    | —            |
| Non Contact Voltage                                                            | ●            |
| CAT Rating                                                                     | CAT III 600V |
| Listing                                                                        | cULus LISTED |
| Dimensions: 8.875" H x 3.375" W x 1.5" D<br>(225 mm H x 85.7 mm W x 38.1 mm D) |              |
| Weight: 10.7 oz. (303 g)                                                       |              |
| UPC: 0-9264469202-4                                                            |              |
| Included Accessories:<br>test leads, batteries, carrying case                  |              |

### Accessories Available:

- Replacement test lead set
- Replacement carrying case
- Line splitter

**CL1000**

**Capacitance**  
great for  
HVAC work

**Brighter Display**  
than most  
competitive units

**Bar Graph**  
measures fast  
moving readings

**Non-Contact  
Voltage Tester**

**Large Clamp  
opening**

**Work Light**  
illuminates  
clamp area

**Magnetic Mount**  
secures meter and  
frees hands

**Side-Mounted Dial**  
for ease of use

**Lead Storage**  
protects leads

**Frequency /  
Duty Cycle**

Work Light

Built-in Magnetic Mount

Non-Contact Voltage Tester

Lead Storage

**⚠ WARNING:** Read, understand, and follow all instructions, cautions and warnings attached to and/or packed with all test and measurement devices before each use.
