

Dynatron D850 & D950plus Combo IFC and U/S Electrotherapy units

The Dynatron 850+ has **three** treatment channels: two Interferential Therapy channels and one dedicated High Volt channel.

The Dynatron 950+ has **six** treatment channels: four Interferential Therapy channels and two dedicated High Volt channels.

Features

Three(D850+) or Six (D950+) Channels Electrotherapy Units with Ultrasound

Modalities Available

Multi-frequency Ultrasound, Interferential, Premodulated, Microcurrent, Russian stimulation, Biphasic stimulation and High Volt.

Modifiable Treatment Parameters

Lightweight and Portable Size: 25 x 24 x 8 cm Weight: 2 kg (4.6 lbs)

Target and Target Sweep Functions

The target feature allows to precisely position the beat frequency without repositioning the electrodes in quad-polar mode. Increases efficiency and facilitates the interferential treatment.

Soundhead with Warming Function

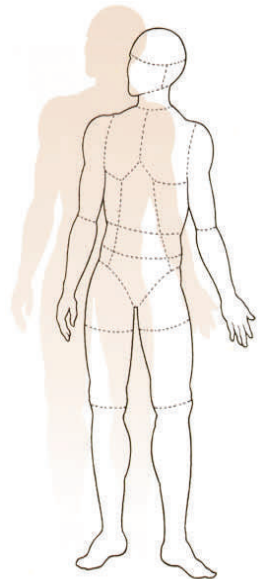

Increases patient comfort

Solid Construction

Metal Case

Reliable

Two-year warranty
