

# G810 ORION SPECTRUM

Mechanical RGB Keyboard

## PERFORMANCE-DRIVEN DESIGN

- Full-size keyboard delivering peak performance in a clean, unobtrusive design.

## EASY-ACCESS MEDIA CONTROL

- Background track can be controlled without switching out of the game.
- Dedicated media controls that can be used to play, pause, and mute music and videos instantly.
- The volume can be adjusted with the roller and with the touch of a button the gamer can skip to the next song.

## CUSTOMISABLE RGB LIGHTING

- Gamers can customise the key lighting from a palette of 16.8million colours.
- Keys can also be personalised by colour for specific games or game events to keep track of spells and game commands.
- Lighting effects can be synchronised with other Logitech G devices.

## ULTRA-RESPONSIVE ROMER-G MECHANICAL KEY SWITCHES

- Up to 25% faster actuation than other top gaming keyboards with standard mechanical switches.
- Durability is 40% better than standard Cherry MX switches at 70 million keystrokes.

# G810 ORION SPECTRUM™

Mechanical RGB Keyboard

## SOFTWARE FEATURES

- Logitech Gaming Software gives full control of G810.
- Customisation of favourite games with custom button macros on F1-F12.
- Full control of per-key RGB lighting.
- Customisation of keys which are turned off when the user turns on game mode (by default, game mode disables the Windows key).

### Demo Mode

1. Hold the F1, F3 and F5 keys before plugging the keyboard into a usb power supply or a PC.
2. Continue to hold the keys for 5-7 sec, while you plug in the keyboard.
3. Unplug the keyboard before you let go of the keys.
4. Let go of the keys.  
Plug in the keyboard as normal without pressing any keys.

Repeat the process to change it back to normal mode.

\*Works with power supply only.
