

## MSI Wind Top AE2400-057US

- Intel® Core™ 2 Quad Q9400 Processor
- Genuine Windows® 7 Home Premium 64-bit
- 23.6" 1920 x 1080 widescreen
- Multi Touch
- Get powerful 64-bit performance with 4GB DDR3 system memory
- 1 Terabyte hard drive stores up to 220,000 songs or 176,000 photos
- DVD Super Multi rewriter drive, support dual-layer burning
- ATI Mobility Radeon HD 565v with 1GB graphic memory

Windows® . Life without Walls™

MSI recommends Windows 7

### Support for High-Performance Intel Quad Core CPU

The future is in multimedia so the AE2400 uses the high-performance and energy-saving ATI Mobility Radeon HD 565v discrete graphic card with 1GB GDDR3 memory. Based on the latest graphics structure, the ATI Mobility Radeon HD 565v supports Microsoft's new DirectX 11 standards and is fully compatible with Windows 7. The 2nd generation UVD video processing engine perfectly handles H.264, VC-1 and MPEG2 high-definition video formats for smoother and more vivid imagery. The all new 3D engine in the ATI Mobility Radeon HD 565v means the AE2400 can run 3D games with ease as well. When matched to the large Full HD screen, gamers will have their breaths taken away by the stunning visual experience.

### The Most Outstanding Control – Large Multi-Touch 23.6" Display

Wind Top AE2400 comes with a 23.6" display with 16:9 aspect ratio and a built-in multi-touch panel that offers precision controls and faster response time. With a touch screen display, selecting, dragging, and resizing objects has never been easier. The intuitive and user-friendly interface blends technology with life, making computers easier and more fun to use—suitable for the whole family

### Purebred Sound System

The Hi-Fi is equipped with MSI' proprietary Premium Sound Technology. IN an industry first, high-end 5W stereo speakers are integrated into the All-in-One PC together with patented Noise-Cancelling technology to minimize noise during sound signal transmission. Metal diaphragms used on high-end sound systems are fitted to provide a professional-grade sound field. Even more thought went into the AE2400 by adding to the existing hi-fidelity 5W stereo speakers a 10W sub-woofer in an industry first. This delivers realistic 2.1 channel sound that allows for more a sophisticated sound field suitable for gaming, movies and music. With the AE2400, there is no need for external speakers so there is no need to sacrifice space of high-quality audio.

### The most user-friendly interface

The strength of the Wind Top AE2400 is in its audio-video features but MSI knows that the software and hardware interfaces are important as well. The MSI software development team put much thought has gone into the user interface to make the interface suitable for the entire family. A rich variety of information has also been included such as weather forecasts, instant messaging and notice boards to make the interface more friendly and suitable for people of all ages.
