- 21.5" Full HD, Multi touch
- Massive 640GB Hard Drive
- THX TruStudio Pro™ Audio
- SuperMulti DVD burner
- Discrete ATI® Mobility Radeon HD 5430 GPU with 512MB graphic memory

Windows®. Life without Walls™
MSI recommends Windows 7

The Wind Top AE2280 comes with a glossy **21.5" 16:9 cinematic widescreen display** with **Full HD 1080p** high resolution and multi-touch capabilities. Featuring the all-new **Intel® Core i3** series processors, enhanced performance and intelligent multifunction operation, it allows for even more efficient handling of daily work tasks. And with the **ATI® Mobility Radeon HD** series discrete graphics card, you can enjoy a more detailed and smoother picture when watching movies or playing 3D/HD games. The Wind Top AE2280 is also the world's first to feature Hollywood-grade THX TruStudio Pro™ audio performance technology that revolutionizes computer audio and video quality. As both a performance and home theatre All-in-One PC, it comes equipped with an abundance of MSI's exclusive touch control technologies that mark a new era in the computer user experience.

Intel® Core i Series Processors—an Intelligent Upgrade in Work Productivity

The Wind Top AE2280 uses the Core i5 processors with built-in Intel® Turbo Boost technology, which automatically increases or decreases the processor's operating speed power depending on your performance requirements, thus achieving automatic power conservation; you could say it's an intelligent processor. The built-in Intel® Hyper-Threading technology further enhances performance when executing multiple operations simultaneously.

The World's First to Use Hollywood THX TruStudio Pro™ Audio Technology — a Home Theatre Revolution

The Wind Top AE2280 is an industry pioneer by being the first All-in-One PC to use the Hollywood-grade THX TruStudio Pro™ audio performance technology. THX is the standard technology used in Hollywood movies and is often seen in DVD/BD movies, home theatre systems, and high-end automotive acoustic validation.

THX TruStudio Pro™ contains five major technologies:

- **TruStudio Pro Surround**, which enhances surround sound audio, and with hardware, is capable of 7.1 channel surround sound;
- **TruStudio Pro Crystalizer**, which is capable of returning compressed audio files to their original, authentic sound quality;
- **TruStudio Pro Dialog Plus**, which focuses on voice intensification useful for studying a language or clearly hearing the dialogue when watching a late-night movie;
- **TruStudio Pro Speaker**, which imitates deep bass and makes it seem like a subwoofer box has been installed in the PC;
- **TruStudio Pro Smart Volume**, which can control the volume of different music files. The five major functions of the THX Studio Pro™ can all be turned on or off according to preference, giving users in different environments even more choices in adjusting audio settings.

Rich Multi-Touch Software—Providing Easy Creativity to Do It Your Way

The Wind Top AE2280 comes with **Windows® 7** supported multi-touch functionality as well as built-in multi-touch software. What's more, the AE2280 features a range of additional built-in multi-touch software suitable for the whole family to use. Among these is **Wind Touch Generation III**, which uses light finger taps to easily view city and country weather, time, calendar, or to browse pictures, record a video message, or even dial Skype Phone through its clear and friendly interface. The Wind Top AE2280's abundance of built-in multi-touch software gives multi-touch applications more fun and fills your life with creativity and imagination.

SPECIFICATIONS
