

ARC-170

ARC-170 Instructions

1. Print out on card stock, or print on paper, and glue to thin cardboard, such as a cereal box.
2. Cut out each piece along solid lines, including wing slots on the engines.
3. Carefully score along dashed lines except inner wing tabs.
4. Glue and assemble hull, cockpit, and engines.
5. Carefully center and glue top and bottom braces to hull.
6. Glue cockpit to top of hull.
7. Insert engines between braces so they fit against hull, and glue where indicated.
8. Glue and fold wings together. Place glue on back of wing tabs, and insert wing extensions into engine slots.
9. Glue and assemble ARC-170 base.
10. Place ARC-170 on base for display.
