

PCI Express to PCI Riser Card x1 for Intel 1U IPC Server

StarTech ID: PEX1PCI1R

The PEX1PCI1R PCI Express to PCI Riser Card (left-angle) lets you install a 32-bit PCI card into the (x1) PCIe slot on an Intel 1U IPC rackmount chassis - a necessary accessory for almost any Intel 1U chassis, providing a simple way to expand system capabilities by adding I/O ports or a legacy PCI card to newer systems.

Backed by a StarTech.com 2-year warranty and free lifetime technical support.

Applications

- Upgrade an Intel 1U IPC server with additional IO capabilities, such as a storage controller, serial ports, USB, networking, etc.
- Add a legacy card to a new system with only PCI Express slots

Features

- Designed to fit most 1U Intel IPC rack mount server chassis
- Additional power connector for high powered PCI cards
- No driver or software installation

Technical Specifications

Warranty	2 Years
Product Height	0.8 in [20 mm]
Product Length	6.7 in [170 mm]
Product Weight	1.1 oz [30 g]
Product Width	1.1 in [27 mm]
Bus Type	PCI Express
Chipset ID	Pericom - PI7C9X111SL
Connector Type(s)	1 - PCI (5V; 32-bit) Slot Female
Connector Type(s)	1 - PCI Express x1 Male
OS Compatibility	Operating System independent
System and Cable Requirements	1U server chassis with available PCI Express expansion slot
Humidity	5~95% RH
Operating Temperature	0°C to 60°C (32°F to 140°F)
Storage Temperature	0°C to 60°C (32°F to 140°F)
Shipping (Package) Weight	2.8 oz [80 g]
Included in Package	1 - PCI Express Riser Card
Included in Package	1 - Instruction Manual
