

U.S. Robotics®

Analog

Model 5633A

56K* USB Faxmodem

**Includes V.92 and V.90 ITU
standard technologies**

The U.S. Robotics 56K USB Faxmodem combines the ease and convenience of USB with the feature-rich advantages offered by V.92 technology.

Quick Connect cuts dial-up connection time by up to 50%. Modem on Hold identifies incoming calls and enables you to take a call without losing your Internet connection. V.PCM Upstream allows for up to 50% faster upload speeds.

Installation is quick and easy with USB Plug and Play convenience – hot swappable without the need for an additional power supply unit for operation!

We were able to install this modem and start surfing the Web in no time!

56K* USB Faxmodem MODEL 5633A

- USB powered – no external power supply required
- Send e-mail and attachments up to 50% faster
- Connect to the Internet quicker
- Take incoming calls while online
- Installs in three simple steps

Features & Benefits

Send e-mail and attachments faster – Need to send a batch of digital pictures or a large presentation? V.92 lets you send attachments up to 50% faster!

Get online quicker – Quick Connect lets you establish your connection faster, so you spend less time dialing up. You're only seconds away from surfing the Web!

Don't miss that important phone call – U.S. Robotics Internet Call Notification (ICN) lets you screen incoming calls so you can take the important ones. (Call Waiting and Caller ID require service from your local phone company.) Modem on Hold lets you take calls while online without dropping your Internet connection – there's no need for a second phone line. Great for home or office!

Exclusive U.S. Robotics ControlCenter – Customize your upload and download speeds – choose to surf the Web at top speed or to send e-mail attachments faster.

Simple USB installation and use – Plugs into your computer's USB port without the need for an additional dedicated power source.

Software upgradable – Download new features and enhancements as they become available.

Included software turns your computer into a feature-rich fax machine – Send faxes from any Windows application, and receive incoming faxes at any time. Also supports delayed and broadcast faxing.

Simple 1-2-3 installation – Your U.S. Robotics modem installs in three simple steps – it's so easy to install, you'll be up and running in no time!

Standards and Specifications

- Compatible with USB version 1.1 or 2.0
- Up to 56 Kbps downloads with ITU V.90 and V.92
- ITU V.34 up to 33.6 Kbps
- Compatible with ITU and Bell standards down to 300 bps
- V.80 video conferencing support
- V.42/MNP2-4 error control
- V.42bis, V.44, MNP5 data compression
- Fax: EIA 578 (Class 1) with V.17, V.29, V.27ter

Minimum System Requirements

- IBM compatible PC with available USB port
- Analog telephone line
- V.90 requires a V.90 56K ITU standard capable service provider and a 56K compatible analog phone line
- V.92 requires a V.92 56K ITU standard capable service provider and a 56K compatible analog phone line

- V.92 Call Notification feature requires Call Waiting service from your local phone company
- V.92 Call Identification feature requires Call Waiting/Caller ID service from your local phone company
- V.92 Internet Call Notification (ICN) supports Windows 98SE/Me/2000/XP

Installation CD-ROM Requirements

- Windows 98SE/Me/2000/XP operating system
 - For Windows 98SE and Me users:
 - IBM compatible Pentium II 300 MHz processor or equivalent
 - 128 MB RAM
 - 20 MB hard disk space
 - For Windows 2000 and XP users:
 - IBM compatible Pentium III 500 MHz processor or equivalent
 - 128 MB RAM
 - 20 MB hard disk space
- CD-ROM drive

Regulatory/Agency Approvals

- FCC approved (Part 15 Class B/Part 68)
- IC approved (ICES-003/CS-03)
- UL/CUL listed

Package Contents

- U.S. Robotics 56K USB Faxmodem
- USB cable (4.92 ft/1.5 m)
- RJ-11 phone cord (7 ft/2.13 m)
- Installation Guide
- Installation CD-ROM

Warranty

- Two-year limited manufacturer warranty from date of purchase

For details, see www.usr.com

Model Number

5633A – 56K* USB Faxmodem

IC Approved

* Capable of receiving at up to 56 Kbps and sending at up to 48 Kbps (or 31.2 Kbps with V.90 server). Due to FCC regulations on power output, receiving speeds are limited to 53 Kbps. Actual speeds may vary. V.92 and V.90 features require compatible phone service and support from your Internet Service Provider (ISP). U.S. Robotics modems featuring V.92 enhancements are backward compatible and will negotiate the highest possible speed when connecting to an ISP.
