

## Features and Benefits

**DKVM-4K**  
**4-Port KVM Switch**

- Compact and Portable**

Lightweight and compact, the DKVM-4K is a great addition to your desktop at home or in the office. Minimize clutter by using the DKVM-4K to control all your connected PCs through a single monitor, keyboard, and mouse.
- Convenient Select Button and Hot Keys**

The DKVM-4K makes it easy to access your computers with its top panel select button and keyboard hot keys. Switch between your computers at the touch of a button. The DKVM-4K lets you work more efficiently.
- Operating System Compatibility**

The DKVM-4K is compatible with virtually any operating system including all Windows® operating systems for seamless integration with your existing network infrastructure.
- Plug and Play**

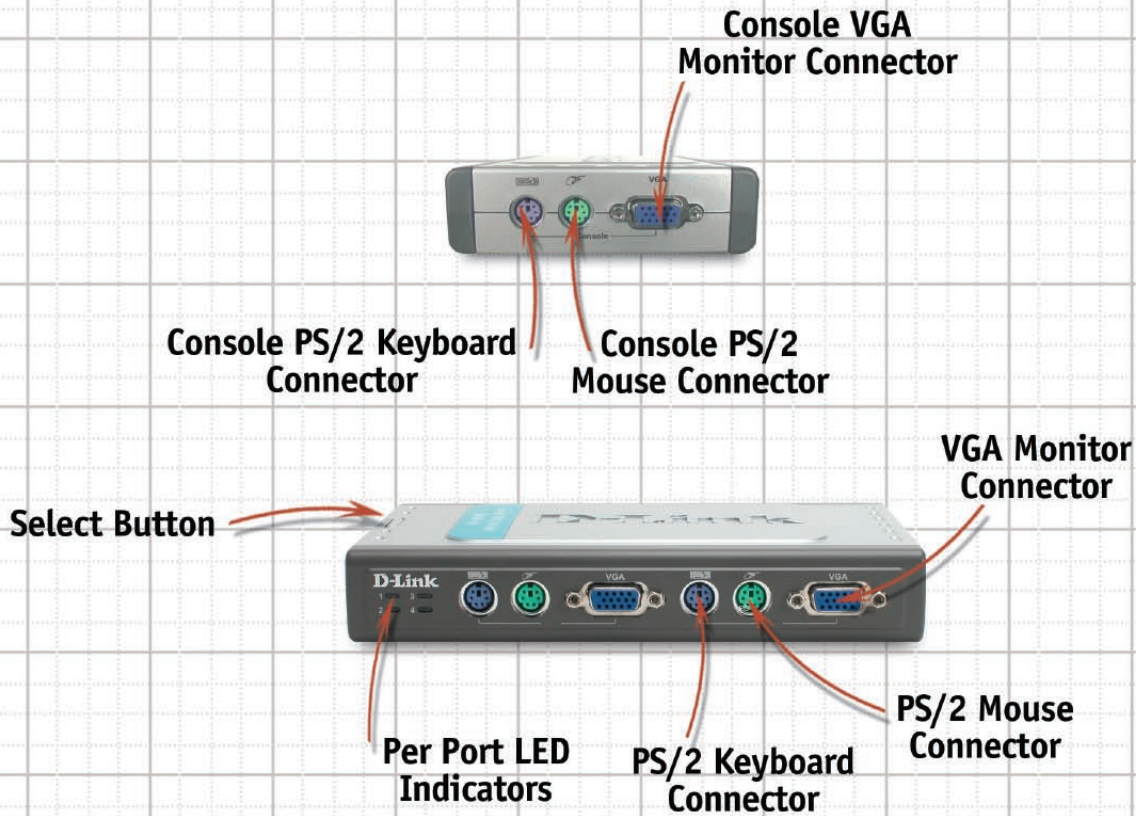

Install the DKVM-4K in a matter of minutes. There are no drivers to worry about and no software to install. Simply plug the DKVM-4K into your computer, and you are ready to start managing your computers!
- Up to 2048 X 1536 Resolution**

Enjoy high video quality-the DKVM-4K supports monitors up to 2048 x 1536 resolution. This makes the DKVM-4K compatible with a wide range of monitors on the market.
- Keyboards and Mice Compatibility**

The DKVM-4K supports PS/2 style keyboards and mice and also supports special mice including Microsoft IntelliMouse® and Microsoft IntelliMouse Explorer®.

## 4-Port

# KVM Switch
