# Switch Overview

## Switch Hardware Features

The ProCurve Switch 1800-8G (J9029A) is a multiport switch that can be used to build high-performance switched workgroup networks. This switch is a store-and-forward device that offers low latency for high-speed networking.

## Switch Ports

The switch has 8 auto-sensing 10/100/1000Base-T IEEE 802.3ab auto MDI/MDI-X RJ-45 ports. With this switch you can directly connect computers, printers, and servers to provide dedicated bandwidth to those devices, and you can build a switched network infrastructure by connecting it to hubs, other switches, or routers. In addition, the switch offers network management capabilities.

## **Switch Overview**

### Switch Hardware Features

## LEDs

The front panel of the switch provides status LEDs for system monitoring. The following table details the functions of the various indicators.

| <b>System LED</b> | <b>State</b> | <b>Meaning</b>   |
|-------------------|--------------|--|
| Power<br>(green)  | On           | The switch is receiving power.   |
|                   | Off          | The switch is NOT receiving power.   |
| Fault<br>(orange) | On           | The switch has a hardware failure, or has failed its self test. See chapter 4, "Troubleshooting" for more information. |
|                   | Off          | The normal state; indicates that there are no fault conditions on the switch.  |

| <b>Port LED</b>                                     | <b>State</b> | <b>Meaning</b>   |
|---|--------------|--|
| Link/Act<br>(green – overlaid with the port number) | On           | The port is enabled and receiving a link indication from the connected device.   |
|   | Off          | The port has no active network cable connected, or is not receiving link signal. |
|   | Flashing     | Indicates that there is network activity on the port.                            |
| FDx<br>(green)                                      | On           | Indicates the port is operating at full duplex                                   |
|   | Off          | Indicates the port is operating at half duplex                                   |
| Spd<br>(green)                                      | On           | Indicates the port is operating at 1000 Mbps.                                    |
|   | Off          | Indicates the port is operating at 10 or 100 Mbps.                               |

## Switch Features

The features of the ProCurve Switch 1800-8G include:

- 8 auto-sensing 10/100/1000Base-T RJ-45 ports.
- plug-and-play networking—all ports are enabled—just connect the network cables to active network devices and your switched network is operational.
- IEEE 802.3ab Auto MDI/MDI-X on all twisted-pair ports, meaning that all connections can be made using straight-through twisted-pair cables. Cross-over cables are not required, although they will also work. The pin operation of each port is automatically adjusted for the attached device: if the switch detects that a 10/100 Mbps switch or hub is connected to the port, it configures the port as MDI; if the switch detects that a 10/100 Mbps end-node device is connected to the port, it configures the port as MDI-X.
- automatic learning of the network addresses in each switch's 8000- address forwarding table.
- automatically negotiated full-duplex operation for all 10/100/1000Base-T RJ-45 ports when connected to other auto-negotiating devices
- easy management of the switch through several available interfaces:
  - Web browser interface — an easy to use built-in graphical interface that can be accessed from common Web browsers.
  - ProCurve Manager (PCM) — allows network administrators to discover and map the ProCurve Switch 1800 within their network and launch the ProCurve Switch 1800's built-in graphical interface from within PCM to configure the switch.
- support for up to 64 IEEE 802.1Q-compliant VLANs so you can divide the attached end nodes into logical groupings that fit your business needs.

## **Switch Overview**

### Switch Hardware Features

- support for up to 4 trunks so you to assign physical links to one logical link (trunk) that functions as a single, higher-speed link providing dramatically increased bandwidth.
- support for many advanced features to enhance network performance—for a description, see the *Management and Configuration Guide*.
- download of new switch software for product bug fixes.

# Installing the Switch

---

The ProCurve Switch 1800-8G is easy to install. It comes with rubber feet that can be attached so the switch can be securely located on a horizontal surface. This chapter shows how to install the switch.

## Included Parts

The following components ship with a ProCurve Switch 1800-8G:

- *ProCurve Switch 1800-8G Installation and Getting Started Guide (5991-4725)*, this manual
- Customer Support/Warranty booklet
- Four rubber feet
- AC power adapter, one of the following:

### **12 V / 1 A adapter (40 degree C)**

|                             |           |
|-----------------------------|-----------|
| Argentina                   | 5188-5679 |
| Australia/New Zealand       | 5188-5678 |
| China                       | 5188-5677 |
| Continental Europe/Denmark  | 5188-5673 |
| Japan                       | 5188-5676 |
| Korea                       | 5188-5675 |
| United Kingdom/Hong Kong    | 5188-5672 |
| United States/Canada/Mexico | 5188-5671 |

## Installing the Switch

### Included Parts

#### 13 V / 0.8 A adapter (55 degree C)

|                             |           |

# Installation Procedures

## Summary

Follow these easy steps to install your switch. The rest of this chapter provides details on these steps.

1. **Prepare the installation site.** Make sure of the following:
  - the network cabling is the correct type and length. *See page 2-5.*

*See page 2-4 for installation precautions.*
2. **Verify the switch passes self test.** This is a simple process of plugging the switch into a power source and observing that the LEDs on the switch's front panel show correct operation. *See page 2-7.*
3. **Mount the switch.** The switch can be mounted on any horizontal surface.
4. **Connect power to the switch.** Once the switch is mounted, plug in the AC power adapter. *See page 2-8.*
5. **Connect the network devices.** Using the appropriate network cables, connect computers, servers, printers and other peripherals, and other network devices including other switches, hubs, or routers to the switch ports. *See page 2-9.*

At this point, the switch is fully installed and your network should be up and running. See the rest of this chapter if you need more detailed information on any of these installation steps.

## Installation Precautions:

Follow these precautions when installing your switch.

- 
- Cautions**
- Make sure you use the power adapter supplied with the switch to connect it to an AC power source.
  - When installing the switch, since the unit does not have an On/Off power switch, an AC power outlet must be located near the switch and should be easily accessible in case the switch needs to be powered off.
  - Make sure the switch does not overload the power circuits, wiring, and over-current protection. To determine the possibility of overloading the supply circuits, add together the amperage ratings of all devices installed on the same circuit as the switch and compare the total with the rating limit for the circuit. The maximum amperage ratings are usually printed on the devices near the AC power connectors or power adapter connectors.
  - Do not install the switch in an environment where the operating ambient temperature might exceed 40 °C (104 °F).
  - Make sure the air flow around the sides of the switch is not restricted.
-

## 1. Prepare the Installation Site

- **Cabling Infrastructure** - To ensure proper operation when installing the switch into a network, make sure that the current cables are suitable for 10Base-T, 100Base-TX, or 1000Base-T operation.

Be sure to follow the guidelines below to ensure proper operation when installing the switch into a network:

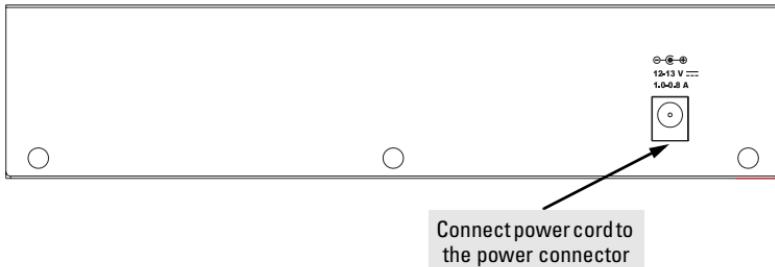

- Cable type: Unshielded twisted pair (UTP) or shielded twisted pair (STP) cables with RJ-45 connectors, maximum length 100 meters (328 ft); Category 3 or better for 10Base-T, Category 5 or better for 100Base-TX, and Category 5, 5e, or 6 for 1000Base-T.
- Protection from radio frequency interference emissions.
- Use electrical surge suppression.
- Use safe connections with no damaged cables, connectors or shields.

- **Installation Location** - Before installing the switch, plan its location and orientation relative to other devices and equipment. At the front of the switch, leave at least 7.6 cm (3 inches) of space for the twisted-pair cabling. At the back of the switch, leave at least 2.6 cm (1 inch) of space for the adapter's power cord.

## 2. Verify the Switch Passes Self Test

Before mounting the switch in its network location, you should first check that it is working properly by plugging it into a power source and verifying that it passes its self test.

1. Connect the adapter's power cord to the power connector on the back of the switch, and then plug the AC power adapter into a nearby properly grounded electrical outlet.

---

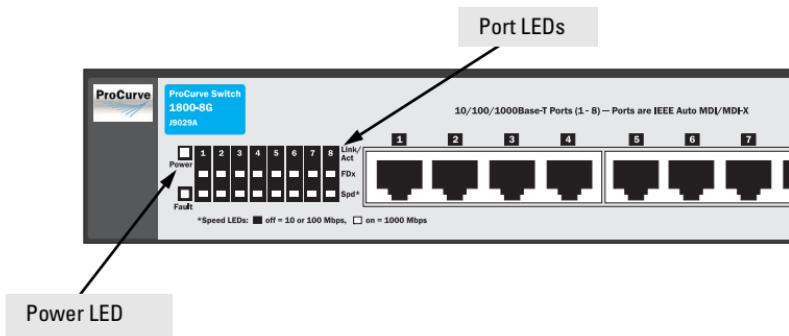

**Note** The switch does not have a power switch. It is powered on when the AC power adapter is connected to the switch and to a power source.

---

**Caution** Use only the AC power adapter supplied with the switch. Use of other adapters, including those that came with other ProCurve Networking products, may result in damage to the equipment.

---

2. Check the LEDs on the switch. The LED behavior is described below.

When the switch is powered on, it performs its diagnostic self test. The self test takes approximately 8 seconds to complete.

### Self Test LED Behavior:

#### **During the self test:**

- The LEDs will go on for a couple of seconds during the phases of the self test.

#### **When the self test completes successfully:**

- The **Power** LED stays on.
- The **Fault** LED stays off.
- In the default state, the FDx LED stays on and the Spd LED stays off.
- The port LEDs on the front of the switch go into their normal operational mode.
  - If the ports are connected to active network devices the Link LEDs should be on.

If the LED display is different than what is described above, the self test has not completed correctly. Refer to chapter 4, "Troubleshooting" for diagnostic help.

### 3. Mount the Switch

After you have verified that the switch passes its self test, you are ready to mount the switch in a stable location. The switch can be mounted on a horizontal surface.

#### Horizontal Surface Mounting

Place the switch on a table or other horizontal surface. The switch comes with rubber feet in the accessory kit that can be used to help keep the switch from sliding on the surface.

Attach the rubber feet to the four corners on the bottom of the switch within the embossed angled lines. Use a sturdy surface in an uncluttered area. You may want to secure the networking cables and switch power cord to the table leg or other part of the surface structure to help prevent tripping over the cords.

---

**Note** Make sure the air flow is not restricted around the sides of the switch.

---

### 4. Connect the Switch to a Power Source

1. Plug the included AC power adapter into the switch's power connector and into a nearby AC power source.
2. Re-check the LEDs during self test. See "Self Test LED Behavior:" on page 2-7.

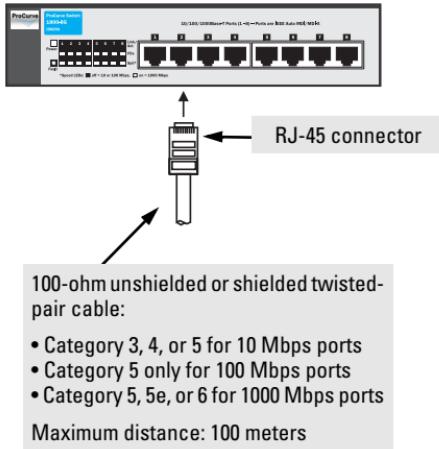

## 5. Connect the Network Cables

### Using the RJ-45 Connectors (10/100/1000Base-T ports)

#### To connect:

Push the RJ-45 plug into the RJ-45 jack until the tab on the plug clicks into place. When power is on for the switch and for the connected device, the Link/Act LED for the port should light to confirm a powered-on device (for example, an end node) is at the other end of the cable.

If the Link LED does *not* go on when the network cable is connected to the port, see “Diagnosing With the LEDs” in chapter 4, “Troubleshooting”.

#### To disconnect:

Press the small tab on the plug and pull the plug out of the jack.

## **Installing the Switch**

### Installation Procedures

# Configuring the Switch

---

## Initial Configuration

The ProCurve Switch 1800-8G can be managed through a Web-browser interface that you can access from any PC or workstation in the connected network. For initial configuration, you may want to assign an IP address to the switch that is compatible with your existing network. However, you first need to access the Web interface using the switch's default IP address.

The following procedure shows how to access the Web interface and change the switch's IP address:

1. Place the switch close to the PC that you will use for configuration. It helps if you can see the front panel of the switch while working on your PC.
2. Connect the Ethernet port of your PC to any port on the front panel of your switch, start your PC (if it is not already running), connect power to the switch and when your PC has finished its start-up sequence, verify that you have a link by checking the LEDs on the front-panel of the switch (see "LEDs" on page 1-2 for more information).
3. Set your PC's IP address to be on the same subnet as the switch. The default IP address of the switch is 192.168.2.10 and the subnet mask is 255.255.255.0, so the PC and switch are on the same subnet when they both have addresses that start 192.168.2.x. If the PC and switch are already on the same subnet, proceed directly to step 4. Otherwise, you must manually set the PC's IP

## **Configuring the Switch**

### Changing PC's IP Address

address to 192.168.2.x (where "x" can be any number from 1 to 255, except 10). If you are unfamiliar with this process, see "Changing PC's IP Address" on page 3-2.

4. Open your Web browser and enter the address <http://192.168.2.10>. If your PC is properly configured, you will see the login page of your switch. If you do not see the login page, check your settings and repeat step 3.
5. There is no default password, just click the Login button to access the Web management interface.
6. From the menu, click **SYSTEM**, then **IP Address**. On the IP Address page, enter the IP address, Subnet Mask and Gateway IP Address for the switch, then click on the **APPLY** button.

No other configuration changes are required at this stage, but it is recommended that you configure an administrator password before logging out. From the menu, click **SYSTEM**, then **Password**. On the Password page, fill in all the fields before clicking on the **APPLY** button.

---

**Note** If you cannot remember the switch's IP address or password, you can restore the factory default settings by following the procedure described in the "Troubleshooting" section.

---

## Changing PC's IP Address

To change the IP address of your PC:

1. On Windows® XP, go to **Start**, **Settings**, **Network and Dial-up Connections**.
2. Right-click the connectin icon of which the IP address you want to change, and then click **properties**.

3. In **General** tab, under **Components checked are used by this connection**, click to select **Internet Protocol (TCP/IP)**, and then click **Properties** to open **Internet Protocol (TCP/IP) Properties** dialog box.
4. In **Internet Protocol (TCP/IP) Properties** dialog box, click to select **Use the following IP address**.
5. In **IP address**, **Subnet mask**, and **Default gateway**, type your intended information.
6. Click **OK** to save the changes and quit.

## Where to Go From Here

For more information on the Web browser interface and all the features that can be configured on the ProCurve 1800-8G switch, see the *ProCurve Series 1800 Switch Management and Configuration Guide*, which is available on the ProCurve Networking Web site, <http://www.procurve.com>.

---

# Troubleshooting

---

This section describes how to troubleshoot the switch. For more information, see the chapter “Troubleshooting” in the *ProCurve Series 1800 Switch Management and Configuration Guide*, which is available on the ProCurve Networking Web site, <http://www.procurve.com>.

This chapter describes the following:

- basic troubleshooting tips (page 4-1)
  - diagnosing with the LEDs (page 4-2)
  - hardware diagnostic tests (page 4-4)
  - ProCurve Networking Customer Support Services (page 4-5)
- 

## Basic Troubleshooting Tips

Common problems and their solutions are listed in the following table.

For more information on possible network problems and their solutions, refer to the technical note “Troubleshooting LAN Performance and Intermittent Connectivity Problems”, which can be found on the ProCurve Networking Web site, <http://www.procurve.com>, in the Information Library section.

## Troubleshooting

### Diagnosing With the LEDs

| Problem  | Resolution  |
|--|---|
| Switch fails Power On Self Test (POST)               | Troubleshoot using the LEDs. See "Diagnosing With the LEDs" on page 4-2   |
| Link light does not light when a cable is connected. | Look for loose or obviously faulty connections. If they appear to be OK, make sure the connections are snug. If that does not correct the problem, try a different cable. |

## Diagnosing With the LEDs

LED patterns on the switch may indicate a problem condition.

1. Check in the table for the LED pattern that you see on your switch.
2. Refer to the corresponding diagnostic tip on the next few pages.

| LED Pattern Indicating Problems   |              |                          | Diagnostic Tips |
|-----------------------------------|--------------|--------------------------|-----------------|
| Power                             | Fault        | Port Link                |                 |
| Off with power adapter plugged in | *            | *                        | ①               |
| On                                | Prolonged On | *                        | ②               |
| On                                | Off          | Off with cable connected | ③               |

\* This LED is not important for the diagnosis.

## Diagnostic Tips:

| Ti       | Problem   | Solution   |
|----------|---|--|
| <b>①</b> | The switch's power adapter is not plugged into an active AC power source, or the power adapter may have failed. | <ol style="list-style-type: none"> <li>Verify the AC power adapter is plugged into an active power source and to the switch. Make sure these connections are snug.</li> <li>Try power cycling the switch by unplugging and plugging in the power.</li> <li>If the Power LED is still not on, verify that the AC power source works by plugging another device into the outlet. Or try plugging the switch into a different outlet.</li> </ol> <p>If this condition persists, the switch's power adapter may have failed. Call your ProCurve Networking authorized network reseller, or use the electronic support services from ProCurve Networking to get assistance. See the Customer Support/Warranty booklet for more information.</p> |
| <b>②</b> | A switch hardware failure was detected during self test.  | <p>Try power cycling the switch. If the fault indication reoccurs, the switch may have failed. Call your ProCurve Networking authorized network reseller, or use the electronic support services from ProCurve Networking to get assistance. See the Customer Support/Warranty card for more information.</p>  |
| <b>③</b> | The network connection is not working properly.   | <p>Try the following procedures:</p> <ul style="list-style-type: none"> <li>For the indicated port, verify that both ends of the cabling, at the switch and the connected device, are secure.</li> <li>Verify the connected device and switch are both powered <i>on</i> and operating correctly.</li> <li>Verify the connected devices comply with the appropriate IEEE 802.3 standard, including transmission of the Link signal.</li> <li>If the other procedures don't resolve the problem, try using a different port or a different cable.</li> </ul>  |

## **Troubleshooting**

### **Forgotten the IP Address or Password**

# **Forgotten the IP Address or Password**

If you have forgotten the switch's IP address or administration password you can return the switch to its factory default state by doing the following:

1. Remove the power adapter from the back of the switch.
2. Connect port 1 to port 2 on the front panel using a standard network cable.
3. Reconnect the power adapter to the rear of the switch.
4. Wait at least 40 seconds before disconnecting port 1 from port 2.

After completing this procedure, there will be no password, the IP address will be returned to the default 192.168.2.10, and all configuration settings will be returned to factory defaults.

# **Hardware Diagnostic Tests**

## **Testing the Switch by Resetting It**

If you believe that the switch is not operating correctly, you can reset the switch to test its circuitry. To reset the switch, unplug and plug in the adapter's power adapter (power cycling).

Power cycling causes the switch to perform its power-on self-test, and almost always will resolve any temporary operational problems.

# ProCurve Networking Customer Support Services

If you are still having trouble with your switch, ProCurve Networking offers support 24 hours a day, seven days a week through the use of a number of automated electronic services. See the Customer Support/Warranty booklet that came with your switch for information on how to use these services to get technical support. The ProCurve Networking Web site, <http://www.procurve.com> also provides up-to-date support information.

Additionally, your ProCurve Networking authorized network reseller can provide you with assistance, both with services that they offer and with services offered by ProCurve Networking.

## Before Calling Support

Before calling your networking dealer or ProCurve Networking Support, to make the support process most efficient, you first should have retrieved the following information:

| Information Item  | Information Location    |
|---|-------------------------|
| • product identification  | the front of the switch |
| • details about the switch's status including the software (OS) version, a copy of the switch configuration, a copy of the switch Event Log, and a copy of the switch status and counters information | Web interface           |
| • copy of your network topology map, including network addresses assigned to the relevant devices   | your network records    |

---

# Specifications

---

## Physical

|                 |                    |
|-----------------|--------------------|
| <b>Width:</b>   | 19.6 cm (7.7 in)   |
| <b>Depth:</b>   | 11.6 cm (4.5 in)   |
| <b>Height:</b>  | 4.4 cm (1.73 in)   |
| <b>Weight :</b> | 0.54 kg (1.19 lbs) |

## Electrical

|                         |             |
|-------------------------|-------------|
| <b>DC voltage:</b>      | 12-13 volts |
| <b>Maximum current:</b> | 1.0-0.8 A   |

## Environmental

|  | <b>Operating</b>                | <b>Non-Operating</b>               |
|--|---------------------------------|------------------------------------|
| <b>Temperature:</b>                            | 0 °C to 40 °C (32 °F to 104 °F) | -40 °C to 70 °C (-40 °F to 158 °F) |
| <b>Relative humidity:<br/>(non-condensing)</b> | 10 % to 90 % at 40 °C (104 °F)  | 10 % to 90 % at 65 °C (149 °F)     |
| <b>Maximum altitude:</b>                       | 2 km (6,562 ft)                 | 2 km (6,562 ft)                    |

## **Specifications**

## **Connectors**

- The 10/100/1000 Mbps RJ-45 twisted-pair ports are compatible with the following standards:
  - IEEE 802.3ab 1000Base-T
  - IEEE 802.3u 100Base-TX
  - IEEE 802.3 10Base-T

## **Safety**

The switch complies with these safety standards:

- EN60950-1 / IEC 60950-1
- CSA 22.2 No. 60950-1
- UL 60950-1

# Safety and EMC Regulatory Statements

---

## Safety Information

Documentation reference symbol. If the product is marked with this symbol, refer to the product documentation to get more information about the product.

**WARNING**

A **WARNING** in the manual denotes a hazard that can cause injury or death.

**CAUTION**

A **CAUTION** in the manual denotes a hazard that can damage equipment.

Do not proceed beyond a **WARNING** or **CAUTION** notice until you have understood the hazardous conditions and have taken appropriate steps.

### Grounding

These are safety class I products and have protective earthing terminals. There must be an uninterrupted safety earth ground from the main power source to the product's input wiring terminals, power cord, or supplied power cord set. Whenever it is likely that the protection has been impaired, disconnect the power cord until the ground has been restored.

## **Safety and EMC Regulatory Statements**

### **Safety Information**

For LAN cable grounding:

- If your LAN covers an area served by more than one power distribution system, be sure their safety grounds are securely interconnected.
- LAN cables may occasionally be subject to hazardous transient voltages (such as lightning or disturbances in the electrical utilities power grid). Handle exposed metal components of the network with caution.

### **Servicing**

There are no user-serviceable parts inside these products. Any servicing, adjustment, maintenance, or repair must be performed only by service-trained personnel.

These products do not have a power switch; they are powered on when the adapter's power cord is plugged in.

# Informations concernant la sécurité

## WARNING

Symbole de référence à la documentation. Si le produit est marqué de ce symbole, reportez-vous à la documentation du produit afin d'obtenir des informations plus détaillées.

## CAUTION

Dans la documentation, un **WARNING** indique un danger susceptible d'entraîner des dommages corporels ou la mort.

Un texte de mise en garde intitulé **CAUTION** indique un danger susceptible de causer des dommages à l'équipement.

Ne continuez pas au-delà d'une rubrique **WARNING** ou **CAUTION** avant d'avoir bien compris les conditions présentant un danger et pris les mesures appropriées.

Cet appareil est un produit de classe I et possède une borne de mise à la terre. La source d'alimentation principale doit être munie d'une prise de terre de sécurité installée aux bornes du câblage d'entrée, sur le cordon d'alimentation ou le cordon de raccordement fourni avec le produit. Lorsque cette protection semble avoir été endommagée, débrancher le cordon d'alimentation jusqu'à ce que la mise à la terre ait été réparée.

### Mise à la terre du câble de réseau local:

- si votre réseau local s'étend sur une zone desservie par plus d'un système de distribution de puissance, assurez-vous que les prises de terre de sécurité soient convenablement interconnectées.
- Les câbles de réseaux locaux peuvent occasionnellement être soumis à des surtensions transitoires dangereuses (telles que la foudre ou des perturbations dans le réseau d'alimentation public). Manipulez les composants métalliques du réseau avec précautions.

## **Safety and EMC Regulatory Statements**

### **Safety Information**

Aucune pièce contenue à l'intérieur de ce produit ne peut être réparée par l'utilisateur. Tout dépannage, réglage, entretien ou réparation devra être confié exclusivement à un personnel qualifié.

Cet appareil ne comporte pas de commutateur principal ; la mise sous tension est effectuée par branchement du cordon d'alimentation.

# Hinweise zur Sicherheit

Symbol für Dokumentationsverweis. Wenn das Produkt mit diesem Symbol markiert ist, schlagen Sie bitte in der Produkt-dokumentation nach, um mehr Informationen über das Produkt zu erhalten.

## **WARNING**

Eine **WARNING** in der Dokumentation symbolisiert eine Gefahr, die Verletzungen oder sogar Todesfälle verursachen kann.

## **CAUTION**

**CAUTION** in der Dokumentation symbolisiert eine Gefahr, die das Gerät beschädigen kann.

Fahren Sie nach dem Hinweis **WARNING** oder **CAUTION** erst fort, nachdem Sie den Gefahrenzustand verstanden und die entsprechenden Maßnahmen ergriffen haben.

Dies ist ein Gerät der Sicherheitsklasse I und verfügt über einen schützenden Erdungsterminal. Der Betrieb des Geräts erfordert eine ununterbrochene Sicherheitserdung von der Hauptstromquelle zu den Geräteeingabeterminals, den Netzkabeln oder dem mit Strom belieferten Netzkabelsatz voraus. Sobald Grund zur Annahme besteht, daß der Schutz beeinträchtigt worden ist, das Netzkabel aus der Wandsteckdose herausziehen, bis die Erdung wiederhergestellt ist.

Für LAN-Kabelerdung:

- Wenn Ihr LAN ein Gebiet umfaßt, das von mehr als einem Strom-Verteilungssystem beliefert wird, müssen Sie sich vergewissern, daß die Sicherheitserdungen fest untereinander verbunden sind.
- LAN-Kabel können gelegentlich gefährlichen Übergangsspannungen ausgesetzt werden (beispielsweise durch Blitz oder Störungen in dem Starkstromnetz des Elektrizitätswerks). Bei der Handhabung exponierter Metallbestandteile des Netzwerkes Vorsicht walten lassen.

## **Safety and EMC Regulatory Statements**

### **Safety Information**

Dieses Gerät enthält innen keine durch den Benutzer zu wartenden Teile. Wartungs-, Anpassungs-, Instandhaltungs- oder Reparaturarbeiten dürfen nur von geschultem Bedienungspersonal durchgeführt werden.

Dieses Gerät hat keinen Netzschalter; es wird beim Anschließen des Netzkabels eingeschaltet.

# Considerazioni sulla sicurezza

Simbolo di riferimento alla documentazione. Se il prodotto è contrassegnato da questo simbolo, fare riferimento alla documentazione sul prodotto per ulteriori informazioni su di esso.

## **WARNING**

La dicitura **WARNING** denota un pericolo che può causare lesioni o morte.

## **CAUTION**

La dicitura **CAUTION** denota un pericolo che può danneggiare le attrezzature.

Non procedere oltre un avviso di **WARNING** o di **CAUTION** prima di aver compreso le condizioni di rischio e aver provveduto alle misure del caso.

Questo prodotto è omologato nella classe di sicurezza I ed ha un terminale protettivo di collegamento a terra. Dev'essere installato un collegamento a terra di sicurezza, non interrompibile che vada dalla fonte d'alimentazione principale ai terminali d'entrata, al cavo d'alimentazione oppure al set cavo d'alimentazione fornito con il prodotto. Ogniqualvolta vi sia probabilità di danneggiamento della protezione, disinserite il cavo d'alimentazione fino a quando il collegamento a terra non sia stato ripristinato.

Per la messa a terra dei cavi LAN:

- se la vostra LAN copre un'area servita da più di un sistema di distribuzione elettrica, accertatevi che i collegamenti a terra di sicurezza siano ben collegati fra loro;
- i cavi LAN possono occasionalmente andare soggetti a pericolose tensioni transitorie (ad esempio, provocate da lampi o disturbi nella griglia d'alimentazione della società elettrica); state cauti nel toccare parti esposte in metallo della rete.

## **Safety and EMC Regulatory Statements**

### **Safety Information**

Nessun componente di questo prodotto può essere riparato dall'utente. Qualsiasi lavoro di riparazione, messa a punto, manutenzione o assistenza va effettuato esclusivamente da personale specializzato.

Questo apparato non possiede un commutatore principale; si mette scotto tensione all'inserirsi il cavo d'alimentazione.

# Consideraciones sobre seguridad

## **WARNING**

Símbolo de referencia a la documentación. Si el producto va marcado con este símbolo, consultar la documentación del producto a fin de obtener mayor información sobre el producto.

## **CAUTION**

Una **WARNING** en la documentación señala un riesgo que podría resultar en lesiones o la muerte.

Una **CAUTION** en la documentación señala un riesgo que podría resultar en averías al equipo.

No proseguir después de un símbolo de **WARNING** o **CAUTION** hasta no haber entendido las condiciones peligrosas y haber tomado las medidas apropiadas.

Este aparato se enmarca dentro de la clase I de seguridad y se encuentra protegido por una borna de puesta a tierra. Es preciso que exista una puesta a tierra continua desde la toma de alimentación eléctrica hasta las bornas de los cables de entrada del aparato, el cable de alimentación o el juego de cable de alimentación suministrado. Si existe la probabilidad de que la protección a tierra haya sufrido desperfectos, desenchufar el cable de alimentación hasta haberse subsanado el problema.

### Puesta a tierra del cable de la red local (LAN):

- Si la LAN abarca un área cuyo suministro eléctrico proviene de más de una red de distribución de electricidad, cerciorarse de que las puestas a tierra estén conectadas entre sí de modo seguro.
- Es posible que los cables de la LAN se vean sometidos de vez en cuando a voltajes momentáneos que entrañen peligro (rayos o alteraciones en la red de energía eléctrica). Manejar con precaución los componentes de metal de la LAN que estén al descubierto.

## **Safety and EMC Regulatory Statements**

### **Safety Information**

Este aparato no contiene pieza alguna susceptible de reparación por parte del usuario. Todas las reparaciones, ajustes o servicio de mantenimiento debe realizarlos solamente el técnico.

Este producto no tiene interruptor de potencia; se activa cuando se enchufa el cable de alimentación.

# Safety Information (Japan)

安全性の考慮

安全記号

マニュアル参照記号。製品にこの記号がついている場合はマニュアルを参照し、注意事項等をご確認ください。

**WARNING** マニュアル中の「WARNING」は人身事故の原因となる危険を示します。

**CAUTION** マニュアル中の「CAUTION」は装置破損の原因となる危険を示します。

「WARNING」や「CAUTION」の項は飛ばさないで必ずお読みください。危険性に関する記載事項をよく読み、正しい手順に従った上で次の事項に進んでください。

これは安全性クラスⅠの製品で保護用接地端子を備えています。主電源から製品の入力配線端子、電源コード、または添付の電源コード・セットまでの間、切れ目のない安全接地が存在することが必要です。もしこの保護回路が損なわれたことが推測されるときは、接地が修復されるまで電源コードを外しておいてください。

LAN ケーブルの接地に関して:

- もし貴社の LAN が複数の配電システムにより電力を受けている領域をカバーしている場合には、それらのシステムの安全接地が確実に相互に結合されていることを確認してください。
- LAN ケーブルは時として危険な過度電圧（例えば雷や、配電設備の電力網での障害）にさらされることがあります。露出した金属部分の取扱いには十分な注意をはらってください。

本製品の内部にはユーザーが修理できる部品はありません。サービス、調整、保守および修理はサービス訓練を受けた専門家におまかせください。

本製品には電源スイッチがありません。電源コードを接続したとき電源入となります。

## HP 网络产品使用安全手册

### 使用须知

欢迎使用惠普网络产品，为了您及仪器的安全，请您务必注意如下事项：

1. 仪器要和地线相接，要使用有正确接地插头的电源线，使用中国国家规定的 220V 电源。
2. 避免高温和尘土多的地方，否则易引起仪器内部部件的损坏。
3. 避免接近高温，避免接近直接热源，如直射太阳光、暖气等其它发热体。
4. 不要有异物或液体落入机内，以免部件短路。
5. 不要将磁体放置于仪器附近。

### 警告

为防止火灾或触电事故，请不要将该机放置于淋雨或潮湿处。

### 安装

安装辅助管理模块，请参看安装指南。

### 保修及技术支持

如果您按照以上步骤操作时遇到了困难，或想了解其它产品性能，请按以下方式与我们联络。

如是硬件故障：

1. 与售出单位或当地维修机构联系。
2. 中国惠普有限公司维修中心地址：

如是软件问题：

1. 惠普用户响应中心热线电话：010-65645959
2. 传真自动回复系统：010-65645735

# EMC Regulatory Statements

## U.S.A.

### FCC Class A

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

You are cautioned that changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

## Canada

This product complies with Class A Canadian EMC requirements.

## Australia/New Zealand

This product complies with Australia/New Zealand EMC Class A requirements.

## Waste Electrical and Electronic Equipment (WEEE) Statements

### **Disposal of Waste Equipment by Users in Private Household in the European Union**

This symbol on the product or on its packaging indicates that this product must not be disposed of with your other household waste. Instead, it is your responsibility to dispose of your waste equipment by handing it over to a designated collection point for the recycling of waste electrical and electronic equipment. The separate collection and recycling of your waste equipment at the time of disposal will help to conserve natural resources and ensure that it is recycled in a manner that protects human health and the environment. For more information about where you can drop off your waste equipment for recycling, please contact your local city office, your household waste disposal service or the shop where you purchased the product.

## **Recycle Statements**

### Waste Electrical and Electronic Equipment (WEEE) Statements

#### **Likvidace zařízení soukromými domácími uživateli v Evropské unii**

Tento symbol na produktu nebo balení označuje výrobek, který nesmí být vyhozen spolu s ostatním domácím odpadem. Povinností uživatele je předat takto označený odpad na předem určené sběrné místo pro recyklaci elektrických a elektronických zařízení. Okamžité třídění a recyklace odpadu pomůže uchovat přírodní prostředí a zajistí takový způsob recyklace, který ochrání zdraví a životní prostředí člověka. Další informace o možnostech odevzdání odpadu k recyklaci získáte na příslušném obecním nebo městském úřadě, od firmy zabývající se sběrem a svozem odpadu nebo v obchodě, kde jste produkt zakoupili.

#### **Bortskaffelse af affald fra husstande i den Europæiske Union**

Hvis produktet eller dets emballage er forsynet med dette symbol, angiver det, at produktet ikke må bortskaffes med andet almindeligt husholdningsaffald. I stedet er det dit ansvar at bortskaffe kasseret udstyr ved at aflevere det på den kommunale genbrugsstation, der forestår genvinding af kasseret elektrisk og elektronisk udstyr. Den centrale modtagelse og genvinding af kasseret udstyr i forbindelse med bortskaffelsen bidrager til bevarelse af naturlige ressourcer og sikrer, at udstyret genvindes på en måde, der beskytter både mennesker og miljø. Yderligere oplysninger om, hvor du kan aflevere kasseret udstyr til genvinding, kan du få hos kommunen, den lokale genbrugsstation eller i den butik, hvor du købte produktet.

**Seadmete jäätmete kõrvaldamine eramajapidamistes  
Euroopa Liidus**

See tootel või selle pakendil olev sümbol näitab, et könealust toodet ei tohi koos teiste majapidamisjäätmeteega kõrvaldada. Teie kohus on oma seadmete jäätmed kõrvaldada, viies need elektri- ja elektroonikaseadmete jäätmete ringlussevõtmiseks selleks ettenähtud kogumispunkti. Seadmete jäätmete eraldi kogumine ja ringlussevõtmine kõrvaldamise ajal aitab kaitsta loodusvarasid ning tagada, et ringlussevõtmine toimub viisil, mis kaitseb inimeste tervist ning keskkonda. Lisateabe saamiseks selle kohta, kuhu oma seadmete jäätmed ringlussevõtmiseks viia, võtke palun ühendust oma kohaliku linna- kantselei, majapidamisjäätmete kõrvaldamise teenistuse või kauplusega, kust Te toote ostsite.

---

**Laitteiden hävitäminen kotitalouksissa Euroopan unionin alueella**

Jos tuotteessa tai sen pakkauksessa on tämä merkki, tuotetta ei saa hävitää kotitalousjätteiden mukana. Tällöin hävitettävä laite on toimitettava sähkölaitteiden ja elektronisten laitteiden kierrätyspisteesseen. Hävitettävien laitteiden erillinen käsittely ja kierrätyks auttavat säästämään luonnonvaroja ja varmistamaan, että laite kierrätetään tavalla, joka estää terveyshaitta ja suojelee luontoa. Lisätietoja paikoista, joihin hävitettävät laitteet voi toimittaa kierrätettäväksi, saa ottamalla yhteyttä jätehuoltoon tai liikkeeseen, josta tuote on ostettu.

## **Recycle Statements**

### Waste Electrical and Electronic Equipment (WEEE) Statements

#### **Élimination des appareils mis au rebut par les ménages dans l'Union européenne**

Le symbole apposé sur ce produit ou sur son emballage indique que ce produit ne doit pas être jeté avec les déchets ménagers ordinaires. Il est de votre responsabilité de mettre au rebut vos appareils en les déposant dans les centres de collecte publique désignés pour le recyclage des équipements électriques et électroniques. La collecte et le recyclage de vos appareils mis au rebut indépendamment du reste des déchets contribue à la préservation des ressources naturelles et garantit que ces appareils seront recyclés dans le respect de la santé humaine et de l'environnement. Pour obtenir plus d'informations sur les centres de collecte et de recyclage des appareils mis au rebut, veuillez contacter les autorités locales de votre région, les services de collecte des ordures ménagères ou le magasin dans lequel vous avez acheté ce produit.

#### **Entsorgung von Altgeräten aus privaten Haushalten in der EU**

Das Symbol auf dem Produkt oder seiner Verpackung weist darauf hin, dass das Produkt nicht über den normalen Hausmüll entsorgt werden darf. Benutzer sind verpflichtet, die Altgeräte an einer Rücknahmestelle für Elektro- und Elektronik-Altgeräte abzugeben. Die getrennte Sammlung und ordnungsgemäß Entsorgung Ihrer Altgeräte trägt zur Erhaltung der natürlichen Ressourcen bei und garantiert eine Wiederverwertung, die die Gesundheit des Menschen und die Umwelt schützt. Informationen dazu, wo Sie Rücknahmestellen für Ihre Altgeräte finden, erhalten Sie bei Ihrer Stadtverwaltung, den örtlichen Müllentsorgungsbetrieben oder im Geschäft, in dem Sie das Gerät erworben haben

**Απόρριψη άχρηστου εξοπλισμού από χρήστες σε ιδιωτικά νοικοκυριά στην Ευρωπαϊκή Ένωση**

Το σύμβολο αυτό στο προϊόν ή τη συσκευασία του υποδεικνύει ότι το συγκεκριμένο προϊόν δεν πρέπει να διατίθεται μαζί με τα άλλα οικιακά σας απορρίμματα. Αντίθετα, είναι δική σας ευθύνη να απορρίψετε τον άχρηστο εξοπλισμό σας παραδίδοντάς τον σε καθορισμένο σημείο συλλογής για την ανακύκλωση άχρηστου ηλεκτρικού και ηλεκτρονικού εξοπλισμού.

Η ξεχωριστή συλλογή και ανακύκλωση του άχρηστου εξοπλισμού σας κατά την απόρριψη θα συμβάλει στη διατήρηση των φυσικών πόρων και θα διασφαλίσει ότι η ανακύκλωση γίνεται με τρόπο που προστατεύει την ανθρώπινη υγεία και το περιβάλλον. Για περισσότερες πληροφορίες σχετικά με το που μπορείτε να παραδώσετε τον άχρηστο εξοπλισμό σας για ανακύκλωση, επικοινωνήστε με το αρμόδιο τοπικό γραφείο, την τοπική υπηρεσία διάθεσης οικιακών απορριμμάτων ή το κατάστημα όπου αγοράσατε το προϊόν.

**Készülékek magánháztartásban történő selejtezése az Európai Unió területén**

A készüléken, illetve a készülék csomagolásán látható azonos szimbólum annak jelzésére szolgál, hogy a készülék a selejtezés során az egyéb háztartási hulladéktól eltérő módon kezelendő. A vásárló a hulladékká vált készüléket köteles a kijelölt gyűjtőhelyre szállítani az elektromos és elektronikai készülékek újrahasznosítása céljából. A hulladékká vált készülékek selejtezéskori begyűjtése és újrahasznosítása hozzájárul a természeti erőforrások megőrzéséhez, valamint biztosítja a selejtezett termékek környezetre és emberi egészségre nézve biztonságos feldolgozását. A begyűjtés pontos helyéről bővebb tájékoztatást a lakhelye szerint illetékes önkormányzattól, az illetékes szemétteltakarító vállalattól, illetve a terméket elárusító helyen kaphat.

## **Recycle Statements**

### **Waste Electrical and Electronic Equipment (WEEE) Statements**

#### **Smaltimento delle apparecchiature da parte di privati nel territorio dell'Unione Europea**

Questo simbolo presente sul prodotto o sulla sua confezione indica che il prodotto non può essere smaltito insieme ai rifiuti domestici. È responsabilità dell'utente smaltire le apparecchiature consegnandole presso un punto di raccolta designato al riciclo e allo smaltimento di apparecchiature elettriche ed elettroniche. La raccolta differenziata e il corretto riciclo delle apparecchiature da smaltire permette di proteggere la salute degli individui e l'ecosistema. Per ulteriori informazioni relative ai punti di raccolta delle apparecchiature, contattare l'ente locale per lo smaltimento dei rifiuti, oppure il negozio presso il quale è stato acquistato il prodotto.

#### **Nolietotu iekārtu iznīcināšanas noteikumi lietotājiem Eiropas Savienības privātajās mājsaimniecībās**

Šāds simbols uz izstrādājuma vai uz tā iesaiņojuma norāda, ka šo izstrādājumu nedrīkst izmest kopā ar citiem sadzīves atkritumiem. Jūs atbildat par to, lai nolietotās iekārtas tiktu nodotas speciāli iekārtotos punktos, kas paredzēti izmantoto elektrisko un elektronisko iekārtu savākšanai otrreizējai pārstrādei. Atsevišķa nolietoto iekārtu savākšana un otrreizējā pārstrāde palīdzēs saglabāt dabas resursus un garantēs, ka šīs iekārtas tiks otrreizēji pārstrādātas tādā veidā, lai pasargātu vidi un cilvēku veselību. Lai uzzinātu, kur nolietotās iekārtas var izmest otrreizējai pārstrādei, jāvēršas savas dzīves vietas pašvaldībā, sadzīves atkritumu savākšanas dienestā vai veikalā, kurā izstrādājums tika nopirkts.

**Vartotojų iš privačių namų ūkių įrangos atliekų šalinimas  
Europos Sajungoje**

Šis simbolis ant gaminio arba jo pakuotės rodo, kad šio gaminio šalinti kartu su kitomis namų ūkio atliekomis negalima. Šalintinas įrangos atliekas privalote pristatyti į specialią surinkimo vietą elektros ir elektroninės įrangos atliekoms perdibirti. Atskirai surenkamos ir perdirbamos šalintinos įrangos atliekos padės saugoti gamtinius išteklius ir užtikrinti, kad jos bus perdibtos tokiu būdu, kuris nekenkia žmonių sveikatai ir aplinkai. Jeigu norite sužinoti daugiau apie tai, kur galima pristatyti perdibtinės įrangos atliekas, kreipkitės į savo seniūniją, namų ūkio atliekų šalinimo tarnybą arba parduotuvę, kurioje įsigijote gaminį.

**Verwijdering van afgedankte apparatuur door privé-gebruikers in de Europese Unie**

Dit symbool op het product of de verpakking geeft aan dat dit product niet mag worden gedeponeerd bij het normale huishoudelijke afval. U bent zelf verantwoordelijk voor het inleveren van uw afgedankte apparatuur bij een inzamelingspunt voor het recyclen van oude elektrische en elektronische apparatuur. Door uw oude apparatuur apart aan te bieden en te recyclen, kunnen natuurlijke bronnen worden behouden en kan het materiaal worden hergebruikt op een manier waarmee de volksgezondheid en het milieu worden beschermd. Neem contact op met uw gemeente, het afvalinzamelingsbedrijf of de winkel waar u het product hebt gekocht voor meer informatie over inzamelingspunten waar u oude apparatuur kunt aanbieden voor recycling.

## **Recycle Statements**

### Waste Electrical and Electronic Equipment (WEEE) Statements

**Pozbywanie się zużyciego sprzętu przez użytkowników w prywatnych gospodarstwach domowych w Unii Europejskiej**  
Ten symbol na produkcie lub jego opakowaniu oznacza, że produktu nie wolno wyrzucać do zwykłych pojemników na śmieci. Obowiązkiem użytkownika jest przekazanie zużyciego sprzętu do wyznaczonego punktu zbiórki w celu recyklingu odpadów powstałych ze sprzętu elektrycznego i elekonicznego. Osobna zbiórka oraz recykling zużyciego sprzętu pomogą w ochronie zasobów naturalnych i zapewnią ponowne wprowadzenie go do obiegu w sposób chroniący zdrowie człowieka i środowisko. Aby uzyskać więcej informacji o tym, gdzie można przekazać zużyty sprzęt do recyklingu, należy się skontaktować z urzędem miasta, zakładem gospodarki odpadami lub sklepem, w którym zakupiono produkt.

#### **Descarte de Lixo Elétrico na Comunidade Européia**

Este símbolo encontrado no produto ou na embalagem indica que o produto não deve ser descartado no lixo doméstico comum. É responsabilidade do cliente descartar o material usado (lixo elétrico), encaminhando-o para um ponto de coleta para reciclagem. A coleta e a reciclagem seletivas desse tipo de lixo ajudarão a conservar as reservas naturais; sendo assim, a reciclagem será feita de uma forma segura, protegendo o ambiente e a saúde das pessoas. Para obter mais informações sobre locais que reciclam esse tipo de material, entre em contato com o escritório da HP em sua cidade, com o serviço de coleta de lixo ou com a loja em que o produto foi adquirido.

**Likvidácia vyradených zariadení v domácnostiach v Európskej únii**

Symbol na výrobku alebo jeho balení označuje, že daný výrobok sa nesmie likvidovať s domovým odpadom. Povinnostou spotrebiteľa je odovzdať vyradené zariadenie v zbernom mieste, ktoré je určené na recykláciu vyradených elektrických a elektronických zariadení. Separovaný zber a recyklácia vyradených zariadení prispieva k ochrane prírodných zdrojov a zabezpečuje, že recyklácia sa vykonáva spôsobom chrániacim ľudské zdravie a životné prostredie. Informácie o zberných miestach na recykláciu vyradených zariadení vám poskytne miestne zastupiteľstvo, spoločnosť zabezpečujúca odvoz domového odpadu alebo obchod, v ktorom ste si výrobok zakúpili.

**Odstranjevanje odslužene opreme uporabnikov v zasebnih gospodinjskih v Evropski uniji**

Ta znak na izdelku ali njegovi embalaži pomeni, da izdelka ne smete odvreči med gospodinjske odpadke. Nasprotno, odsluženo opremo morate predati na zbirališče, pooblaščeno za recikliranje odslužene električne in elektronske opreme. Ločeno zbiranje in recikliranje odslužene opreme prispeva k ohranjanju naravnih virov in zagotavlja recikliranje te opreme na zdravju in okolju neškodljiv način. Za podrobnejše informacije o tem, kam lahko odpeljete odsluženo opremo na recikliranje, se obrnite na pristojni organ, komunalno službo ali trgovino, kjer ste izdelek kupili.

## **Recycle Statements**

### **Waste Electrical and Electronic Equipment (WEEE) Statements**

#### **Eliminación de residuos de equipos eléctricos y electrónicos por parte de usuarios particulares en la Unión Europea**

Este símbolo en el producto o en su envase indica que no debe eliminarse junto con los desperdicios generales de la casa. Es responsabilidad del usuario eliminar los residuos de este tipo depositándolos en un "punto limpio" para el reciclado de residuos eléctricos y electrónicos. La recogida y el reciclado selectivos de los residuos de aparatos eléctricos en el momento de su eliminación contribuirá a conservar los recursos naturales y a garantizar el reciclado de estos residuos de forma que se proteja el medio ambiente y la salud. Para obtener más información sobre los puntos de recogida de residuos eléctricos y electrónicos para reciclado, póngase en contacto con su ayuntamiento, con el servicio de eliminación de residuos domésticos o con el establecimiento en el que adquirió el producto.

#### **Bortskaffande av avfallsprodukter från användare i privathushåll inom Europeiska Unionen**

Om den här symbolen visas på produkten eller förpackningen betyder det att produkten inte får slängas på samma ställe som hushållssopor. I stället är det ditt ansvar att bortskaffa avfallet genom att överlämna det till ett uppsamlingsställe avsett för återvinning av avfall från elektriska och elektroniska produkter. Separat insamling och återvinning av avfallet hjälper till att spara på våra naturresurser och gör att avfallet återvinnas på ett sätt som skyddar människors hälsa och miljön. Kontakta ditt lokala kommunkontor, din närmsta återvinningsstation för hushållsavfall eller affären där du köpte produkten för att få mer information om var du kan lämna ditt avfall för återvinning.
