MP3 Player
user manual

YP-U3

features of your new MP3 Player

Good looking. Smart. Reliable. And lots of fun. Your new MP3 player is all this and more. Its compact silhouette takes up the tiniest space in your pocket, and its state-of-the-art technology delivers rich sound. You'll love your new MP3 player, whether you're exercising, downloading your favorite tunes, or even listening to FM Radio. Use it once, and you'll wonder how you ever lived without it.

USER-FRIENDLY INTERFACE!

The MP3 player is an USB-integrated product with no need for a USB cable, which offers you fast data transfer and convenient recharging.

FREEDOM OF MY FAVORITE SELECTION WITH MP3 PLAYER!

You can edit your favorite music files in the playlist.

EXPANSION AND COMPATIBILITY

With your new player, you're not limited to MP3 files. Your player supports MP3 and WMA formats.

TOUCH NAVIGATION!

You can tap on the touch pad to navigate through the menus.

LONGER PLAY TIME AND SHORTER DOWNLOADING!

A fully charged battery can play up to 15 hours of music (when using the earphone).

Download times are shorter. Because of its USB 2.0 capability, the player is much faster than models with USB 1.1.

ACOUSTIC WONDER

Your new MP3 player has built-in DNSe (Digital Natural Sound engine), Samsung's™ unique sound technology created to deliver richer, deeper sound for an unbelievable listening experience.

WHERE FORM MEETS FUNCTION

Sure, it's sleek and good-looking. But it's easy to hold and use, too.

safety information

What the icons and signs in this user manual mean :

⚠ WARNING	Means that death or serious personal injury is a risk.
⚠ CAUTION	Means that there is a potential risk for personal injury or material damage.
⚡ CAUTION	To reduce the risk of fire, explosion, electric shock, or personal injury when using your MP3 Player, follow these basic safety precautions:
✐ NOTE	Means hints or referential pages that may be helpful to operate the player.

◌	Do NOT attempt.
✗	Do NOT disassemble.
☜	Do NOT touch.
★	Follow directions explicitly.
⎗	Unplug the power plug from the wall socket.
✆	Call the service center for help.

These warning signs are here to prevent injury to you and others.
Please follow them explicitly.
After reading this section, keep it in a safe place for future reference.

safety information

This manual describes how to properly use your new mp3 player.
Read it carefully to avoid damaging the player and injuring yourself.
Pay particular attention to the following serious warnings:

PROTECT YOURSELF

- Do not disassemble, repair, or modify this product on your own.

CAUTION
- Do not get the product wet or drop it in water. If the product gets wet, do not switch it on because you could get an electric shock. Instead, contact a Samsung Customer Service Center near you.

CAUTION
- Do not use the earphone while you are driving a bicycle, automobile or motorcycle.
  Otherwise it can cause a serious accident and, furthermore, it is prohibited by the law in some areas.
  Using the earphone while walking or jogging on a road, in particular, on a crosswalk can lead to a serious accident.

- For your safety, make sure the earphone cable does not get in the way of your arm or other surrounding objects while you are taking exercise or a walk.

- Take caution when you use the player with the USB plug pulled out. The sharp USB connection plug may cause injury.

WARNING
- Do not place the product in damp, dusty, or sooty areas because these environments could lead to fire or electric shock.

PROTECT YOURSELF

WARNING

- Using the earphone or headphone for an extended time can cause serious damage to your hearing.
  If you are exposed to sound louder than 85db for an extended time, you may adversely affect your hearing. The louder the sound is, the more seriously damaged your hearing may be (an ordinary conversation is between 50 to 60db and road noise is approximately 80db). You are strongly advised to set the volume level to medium (the medium level is usually less than 2/3 of the maximum).

- If you feel a ringing in the ear(s), lower the volume or stop using the earphone or headphone.

PROTECT YOUR MP3 PLAYER

- Do not leave the player in temperatures above 95°F (35°C), such as a sauna or a parked car.

- Do not cause excessive impact on the player by dropping it.

- Do not place heavy objects on top of the player.

- Prevent any foreign particles or dust from entering into the product.

- Do not place the product near magnetic objects.

- Be sure to backup important data. Samsung is not responsible for data loss.

- Use only accessories provided by or approved by Samsung.

CAUTION

- Do not spray water on the product. Never clean the product with chemical substances such as benzene or thinner, as it may cause fire, electric shock or deteriorate the surface.

CAUTION

- Failure to follow these instructions may lead to physical injuries or damage to the player.

NOTE

- When printing this user manual, we recommend that you print in color and check "Fit to Page" in the print option for better viewing.

SAFETY INFORMATION

FCC

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: Any changes or modifications in construction of this device which are not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications, However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

4. Use the **[+, −, I◄◄ , ►►I]** and **[►II/⟲] buttons** to choose the settings you prefer.
   - Press the **[I◄◄] button** to move to the previous item.
   - Press the **[►►I] button** to move to the next item/select the menu.
   - Press the **[+, −] button** to move up or down through the current menu.

NOTE
- If the <Settings> screen is open and you don't push any buttons for about 40 seconds, the unsaved settings will be lost, and the player will return to the previous function.

- **What is DNSe?**
  Digital Natural Sound Engine (DNSe) is a sound effect function for MP3 players developed by Samsung. It provides various sound settings to enhance the type of music you're listening to.

CHANGING THE SETTINGS AND PREFERENCES (Continued)

Music setting options

DNSe : Select the right sound for each music genre. Choose either <3D-User>, <3D-Studio>, <3D-Stage>, <3D-Club>, <Concert Hall>, <Normal>, <Rock>, <House>, <Dance>, <Jazz>, <Ballad>, <Rhythm & Blues>, <Classical>, or <User EQ>.

3D-User Set : Sets 3D sound effect and bass enhancement for the 3D-User function. <3D> can be set between 0~5 levels, and <Bass Enhance> between 0~3 levels. If <3D-User Set> is selected, the setting you've made in the <DNSe> menu will change to <3D-User>.

User EQ Set : You can adjust individual frequencies to adjust the sound to your preference. Press the [◄◄ , ►►] button to select the frequency you want to adjust. Press the [+ , −] button to adjust the selected frequency's level and then press the ⏯ button. Press the [◄◄] or [►►] button to select <YES> and then press the ⏯ button to save. If <User EQ Set> is selected, the setting you've made in the <DNSe> menu will change to <User EQ>.

Play Mode : Select playback mode such as repeat settings.
Select from <Normal>, <Repeat>, <Repeat One>, and <Shuffle>.
(<Normal> : To play all the tracks in order one time. <Repeat> : To repeat all files. <Repeat One> : To repeat one file. <Shuffle> : To play files at random.)

Play Speed : Adjust the playback speed of music/voice recording.
Select <x0.7>, <x0.8>, <x0.9>, <x1.0>, <x1.1>, <x1.2>, or <x1.3>.
(The higher the number is, the faster the playback speed is.)

Skip Interval : Set the length of the segment the file will skip when you press the [◄◄] or [►►] button during playback. Select either <1 Track>, <3 sec>, <5 sec>, <7 sec>, <10 sec>, <30 sec>, or <1 min>.

📝 **NOTE**
- If the file was developed with a variable bit rate, the actual length of the skip interval may not be exactly what you select.
- The play speed and skip interval will return to the default (play speed: x1.0, skip interval: 1 track) each time you turn on the player.
- If the play speed is set to other than x1.0, <DNSe> will be switched to <Normal>.
- The adjusted play speed may differ from the actual speed, depending on the file.

FM Radio preferences

You can set FM radio frequencies automatically and also select the FM receiving area and sensitivity.

1. Press and briefly hold the **[⏏] button** to move to the main menu screen.

2. Press the **[+, −] button** to select <**Settings**> 🈁 and then press the **[▶▶] button**.

- The <Settings> menu appears.

3. Press the **[+, −] button** to select <**FM Radio**> and then press the **[▶▶] button**.

- The <FM Radio> menu appears.

Music	▶
User Button Mo..	▶
FM Radio	▶
Time	▶

Auto Preset	▶
FM Region	▶
FM Sensitivity	▶

4. Use the **[+, −, ◄◄, ▶▶]** and **[▶ɪɪ/⏻] buttons** to set functions.

FM Radio setting options

Auto Preset : Automatically scans for available frequencies, which enables you to quickly find a desired frequency. ► page 23

FM Region : You can change an FM area setting in preparation for overseas travel. Select either <Korea/US>, <Japan>, or <Other Countries>.

FM Sensitivity : To receive more or fewer FM radio frequencies, adjust the <FM Sensitivity>. Select either <Low>, <Middle>, and <High>.
If you select <High>, the more frequencies can be received.

NOTE

- Frequency range by region
  - Korea/US: Search for FM frequencies in 100 kHz increments between 87.5 MHz~108.0 MHz.
  - Japan: Search for FM frequencies in 100 kHz increments between 76.0 MHz~108.0 MHz.
  - Other Countries: Search for FM frequencies in 50 kHz increments between 87.50 MHz~108.00 MHz.

- Your previously stored radio frequencies will be deleted when you change the <FM Region> on your player.

CHANGING THE SETTINGS AND PREFERENCES (Continued)

To set Auto Preset

You can preset up to 20 stations in your MP3 player's memory and return to them with the press of just one button. Have the MP3 player find and store stations automatically.

1. Press the **[+ , −] button** to select <**Auto Preset**> and then press the **[▶▶|] button**.
   - The Auto Preset confirmation window will appear.

2. Press the **[|◀◀ , ▶▶|] button** to select <**YES**> and then press the ▶II/⏻ **button**.
   - <Auto Preset....> will appear and up to 20 frequencies are automatically set. Press the **[|◀◀ , ▶▶|] button** to scan for a desired preset frequency.

To cancel Auto Preset

If you want to cancel the auto preset, press any button in the process. The auto preset setting is canceled, and only frequencies set up to that point are stored.

NOTE

- Always connect your earphones to the player when searching or setting frequencies. The earphones serve as antennas to receive FM Radio reception

- In poor reception areas, the player may not find an available FM frequency.

- If no frequencies were preset, <No Preset> will appear.

- You may want to re-set the stored stations if you're going to listen to your MP3 player in a different city. To delete the preset stations and store new ones, simply repeat the process.

Time preferences

Setting the time allows you to use the sleep timer, set automatic shut-off time limits, and even display off.

1. Press and briefly hold the **[ ] button** to move to the main menu screen.

2. Press the **[+, −] button** to select <**Settings**> 🎛 and then press the **[▶▶] button**.

   - The <Settings> menu appears.

   ⟦▸Ⅱ/━⏻⟧ **button**.
   - The selected preset number is deleted.
   - If you don't want to delete the preset number, select <NO>.

VOICE RECORDING

You can record your own voice, speeches, lectures, and other outside sounds with your mp3 player. You can also adjust the quality of the recording by selecting a different bit rate. For more information on setting the voice recording bit rate, see page 28.

Method 1

You can record a voice recording at any time while using other functions.

Press and briefly hold the **[USER/●]** button.

▪ Voice recording will start as soon as the file name is displayed.

● **VOC REC** 64kbps

V0001.mp3

00:00:21 / 02:12:22

Method 2

1. Press and briefly hold the **[⟳] button** to move to the main menu screen.

2. Press the **[+, −] button** to select **<Voice Record>** and then press the **[▶▶] button**.

▪ The <Voice Record> list appears.

Voice Record

3. Press the **[+, −] button** to select **<Record>** and then press the **[▶▶] button**.

▪ The confirmation window will appear.

4. Press the **[◀◀, ▶▶] button** to select **<YES>** and then press the **[▶▶II/●⟳] button**.

▪ Voice recording will start as soon as the file name is displayed
Voice Record List

Record : You can make a voice-recording.

Recorded Files : You can play and listen to recorded files.

VOICE RECORDING (Continued)

To stop recording

1. Press the **⌐USER/◼◼⌐** **button** when you want
   recording to stop.

   § The confirmation window will appear.

> Check recorded
> file?
> YES NO

2. Press the **[◄◄, ►►] button** to select **<YES>** or
   <NO> and then press the **►II/◼◯** **button**.

   § <YES> the just recorded file will play.

   § <NO> the just recorded file will not play.

   § The recorded file is stored in the <Voice Record> 🔊 of the main menu →
   <Recorded Files>.

⚠
CAUTION

§ Do not place the microphone too close or too far away during recording, as this
  can affect the recording quality.

§ Voice recording is not enabled if the memory is full or the battery capacity is
  low.

🗭
NOTE

§ You can make a voice recording for about 66 hours (based on 32Kbps, 1GB)

§ Press the **►II/◼◯** **button** if you want to pause recording.

§ FM radio stations cannot be recorded.

VOICE RECORDING (Continued)

Recorded file names
While recording, the MP3 player generates a file name automatically.

The filename follows the format <VNNNN.mp3>, where V indicates the voice recording file and NNNN defines the recording number.

For example, file name V0003.mp3 is the third voice-recording file to be saved.

To listen to a previously recorded file

1. Press and briefly hold the **[⊙] button** to move to the main menu screen.

2. Press the **[+, −] button** to select **<Voice Record>** 🔍 and then press the **[▶▶] button**.
   - The <Voice Record> list will appears.

3. Press the **[+, −] button** to select **<Recorded Files>** and then press the **[▶▶] button**.
   - The <Recorded files> list will appear.

4. Use **[+, −] button** to select a recorded file of your choice.

5. Press the **[▶❚❚/━◌] button**.
   - The recorded file will start playing.

upgrading firmware

Future upgrades may be available for this player to enhance performance and compatibility.

1. Connect to http://www.samsung.com, select [SUPPORT] → [DOWNLOAD CENTER] and then select your player.

2. When the player page appears, select [Firmware] below the model name to download the latest firmware.

3. Uncompress the downloaded file onto your Desktop.
   - The uncompressed files will be displayed.

4. Connect the player to your PC.

5. Right click on the Start button on the bottom left of your PC's screen, then choose Explore to Open Windows Explorer on your PC.
   - [Samsung YP-U3] is displayed in Windows Explorer.
6. Locate and click on the Desktop icon in
Windows Explorer (left column).
The contents of the Desktop will appear in the
right column.

7. Locate and select the Firmware update files
(right column) and drag-and-drop it into
the folder of [Samsung YP-U3] → [Data] →
[System].
8. After disconnecting USB plug, the player will be turned off automatically.

9. Press and briefly hold the ▶II/⏻ **button**.

  ▪ The firmware will be upgraded.

  ▪ When upgrading is complete, the player will be turned off automatically.

> **NOTE**
> ▪ Check the battery charge status of the player. If the battery is not sufficiently
>   charged, the firmware will not be upgraded.
>
> ▪ You need to have at least 20 MB of free space on the player for the upgrade.

troubleshooting

If you have a problem with your new mp3 player, check for a solution in this list. If the problem persists, contact Samsung Customer Service at 1-800-SAMSUNG (1-800-726-7864).

PROBLEM	SOLUTION
Power will not turn on.	• Power will not turn on if the battery is completely drained. Recharge the battery and turn the power on again.
	• In Hold state, press and briefly hold the ⏻USER/●● and ▶II/●⏻ **buttons** at the same time to reset the system
Buttons do not work.	• Check if the ◁HOLD▷ **switch** is in the direction of the arrow position.
	• Check if you pressed the right button, then press again.
	• In Hold state, press and briefly hold the ⏻USER/●● and ▶II/●⏻ **buttons** at the same time to reset the system
The screen will not turn on.	• If <Display Off> is selected from <Settings> → <Time>, the screen display will be turned off. Press any button and see if it turns on. However, pressing the [+, −, ◀◀, ▶▶, ⏎] button when the HOLD condition is on will not turn on the display.
	• The screen may not be visible under direct sunlight.

PROBLEM	SOLUTION
Power is turning off.	• Check the battery status. • The power is automatically turned off when the battery is completely drained. Recharge the battery. • If <Auto Power Off> is selected from <Settings> → <Time>, the Power in the pause mode will be turned off. Turn on the Player.
Battery life differs from the manual.	• The battery life can vary depending on the sound mode and display setting. • Battery life may be shortened when the player is left for extended periods in low or high temperatures.
Best Buy Digital Music Store Program Malfunction	• Check if your PC meets the basic system requirements.
Connection to your PC is disabled.	• Check the USB plug if it's correctly connected and try again. • Press **<Start>** on the toolbar of your PC to run Windows Update. Select Key Updates and Service Packs, then update all. Reboot your PC and reconnect.
The file transfer rate is too slow.	• If you are running multiple programs including <Best Buy Digital Music Store> on your PC, the file transfer rate will be slow. Exit unnecessary programs and try transferring again.

PROBLEM	SOLUTION
Player isn't playing.	• Check if the available file has been saved in the memory. • Check if the music file is damaged. • Check if there is enough battery power.
File upload doesn't work.	• Check if the USB plug is securely connected. Reconnect if necessary. • Check if the memory is full. • In Hold state, press and briefly hold the ⏻USER/●● and ▶ⅡＤ/●● **buttons** at the same time to reset the system.
Files or data are missing.	• Check if the USB plug has been disconnected during file or data transmission. If this is the case, it may cause serious damage not only to files/data but also to the product. You have to be extra cautious as Samsung is not responsible for data loss.
Abnormal play time display during play.	• Check if the file is in Variable Bit Rate (VBR) format.
Abnormal display of file name.	• Go to <Settings> → <Language> → <ID3 Tag> in the Main Menu screen and set an appropriate language.
The product is hot.	• Heat may be generated during recharging. This has no effect on the product life or functions.

WARRANTY

Samsung warrants this product as free of defects in material, design and workmanship for a period of twelve (12) months from the original date of purchase.

If during the period of warranty this product proves defective under normal use and service, you should return the product to the retailer from whom it was originally purchased.

The liability of Samsung and its appointed maintenance company is limited to the cost of repair and/or replacement of the unit under warranty.

Return of the product for defective reasons should be to the original purchaser; however, Samsung Authorized Dealers and Authorized Service Centers will comply with the warranty on the terms issued to purchasers in the country concerned. For further information relating to the Authorized Service Centers contact; 1-800-SAMSUNG (1-800-726-7864).

Www.Samsung.com

WARANTY CONDITIONS:

1. The warranty is only valid when the warranty card is properly completed, and upon presentation of the proof of purchase consisting of original invoice or sales slip confirmation, indicating the date of purchase, dealer's name, model, serial No. and product number.

Samsung reserves the right to refuse warranty service if this information has been removed or changed after the original purchase of the product from the dealer.

WARRANTY (Continued)

2. Samsung's obligations are to the repair of the defective part, and at its discretion, replacement of the product (service exchange unit).

3. Warranty repairs must be carried out by an Authorized Samsung Dealer/ Service Center. No reimbursement will be made for repairs carried out by non Samsung Centers, and warranty coverage will not be valid for any repairs or damage caused by such repairs.

4. Repair or replacement under the terms of this warranty does not give right to extension to or a new starting of the period of warranty. Repair or direct replacement under the terms of this warranty may be fulfilled with functionally equivalent service exchange units.

5. The warranty is not applicable in cases other than defects in material, design and workmanship.

  - The warranty does not cover the following:

    - Periodic checks, maintenance, repair and replacement of parts due to normal wear and tear.
