BUB-103 & BHT-106R
USB Dongle Wireless Headset

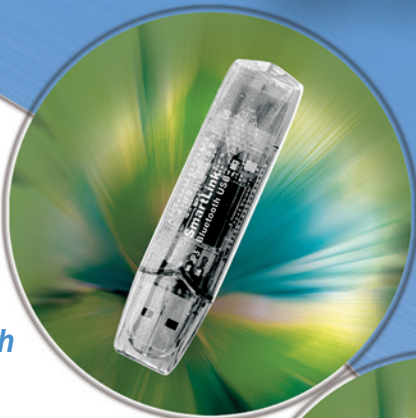

Wireless Life Style

SmartLink Bluetooth devices offer users a unique experience for enjoying revolutionary Bluetooth wireless technology.

The BHT-106R Bluetooth headset can wirelessly connect to the BUB-103 Bluetooth dongle via IVT Blue Soleil software. This allows PC applications such as: Listening to music from a computer, recording sound from the headset to the computer and even chatting with friends using Skype or other VOIP voice communication software. And best of all it can be all done wirelessly.

Both the BHT-106R headset and the BUB-103 dongle work within the standard range of 2.4 - 2.48 GHz at a distance of up to 10 meters in an open space. The BHT-106R headset with its stylish design and low power consumption provides up to 7 hours of talk time and up to 80 hours of standby time.

BUB-103

BHT-106R

Specifications : BHT-106R
